Research fellowships financed with the resources of the research project PRIN 2022 PNRR, Prot. n. P2022ZW4AW, titled "DOBiPS – Data Oriented Biblical Paratext Studies". Public call No. 1409 of 14/09/2022 – PRIN 2022 PNRR M4C2 Inv. 1.1. CUP G53D23007130001.

Art. 1

A selection proceeding is hereby announced for the award of n. 2 research grants at the University of Udine for the performance of the research activity identified in Annex A, which forms an integral and substantial part of this call.

The research grants are linked to the research project on which they are based and are subject to the corresponding financial coverage. Specifically, the project is placed within the context of the Italian National Recovery and Resilience Plan – Mission 4: Education and research, Component 2: From research to business, Investment 1.1: Fund for the National Research Programme and Research Projects of Significant National Interest, funded by the EU-Next GenerationEU. Project PRIN 2022 PNRR, Prot. n. P2022ZW4AW, titled "DOBiPS – Data Oriented Biblical Paratext Studies". CUP G53D23007130001.

The grant may be renewed with the winner in accordance with the provisions of Article 22 of Law no. 240 of 30 December 2010 (in the text prior to Leg. Decree no. 36 of 30 April 2022, converted with amendments by Law no. 79 of 29 June 2022) and the Regulations of the University of Udine for the awarding of research grants issued by Rector's Decree no. 182 of 31 March 2021, in the presence of a positive assessment by the scientific supervisor of the activity carried out by the research fellow, adequate scientific justification and related financial coverage, within the limits set out in Article 3, letters b) and c) below.

DECRETO RETTORALE

The activities covered by the research grant will respect the National Recovery and Resilience Plan's "Do No Significant Harm" principle, i.e., they should not cause significant harm to the environment.

This call guarantees respect for generational, gender and territorial equal opportunities.

The results of the research conducted within the framework of the research grant and the related data will be published in accordance with the "Open Science" and "FAIR data" principles.

The research grant does not entitle the successful candidate to any rights as regards access to University roles.

Any personal communication to candidates relating to this selection will be sent exclusively to the email address indicated in the application form.

Art. 2

The activities covered by the research grant referred to in this call for competition and the admission requirements are indicated and described in Annex A. Failure to meet the admission requirements at the time of applying shall result in the **exclusion** of the candidate from the selection process.

Possession of a PhD qualification or equivalent qualification obtained abroad or, for the sectors concerned only, of a medical specialisation qualification accompanied by an adequate scientific production, constitutes a preferential requirement for the awarding of the grant envisaged for this selection, if it has not been mentioned as an admission requirement.

The Selection Board shall assess, for the sole purpose of admission to the competition, the suitability of any qualification obtained abroad, without prejudice to the assessment of the medical specialisation qualification to which Article 38, paragraph 3.1 of Legislative Decree 165/2001, as amended, and the relevant Community regulations apply.

The Board assesses the qualification obtained abroad based on the relevant documentation enclosed with the application to take part in the selection and may exclude the candidate if the submitted documentation does not provide sufficient elements for the assessment.

Candidates are therefore invited to enclose all documentation in their possession relating to their qualifications in order to provide the Board with sufficient elements to assess their position.

Candidates are admitted to the selection process subject to a reservation and their exclusion, for failure to meet the requirements, may be ordered at any time by reasoned decision.

Art. 3

The research grant referred to in this call cannot be awarded to the following subjects:

- a) Employees of Universities and the entities referred to in Article 22(1) of Law no. 240 of 30 December 2010 (in the text prior to Leg. Decree no. 36 of 30 April 2022, converted with amendments by Law no. 79 of 29 June 2022).
- b) Recipients of previous research grants pursuant to Law no. 240 of 30 December 2010, for the maximum period allowed by the regulations, excluding the period in which the grant was received in conjunction with a PhD, up to the legal duration of the relevant course.

DECRETO RETTORALE

- c) Those who have already been awarded research grants and fixed-term researcher contracts pursuant to Law no. 240 of 30 December 2010 for a total of 12 years, even if not consecutive.

 - The Rector, the Director General or a member of the Board of Directors of the University of Udine.
 - The principal investigator or a professor/researcher belonging to the department or structure of interest where the research grant activity takes place.

The research grant referred to in this call cannot be cumulated with the following:

- a) Awarded scholarships of any kind, except those granted by national or foreign institutions useful for supplementing, by means of stays abroad, the fellow's training or research activities.
- b) Other research grants.
- c) Employment relationships, even if part-time, without prejudice to the provisions of the regulations for employees of public administrations.

The grant referred to in this call is also incompatible with simultaneous attendance of degree courses, master's degrees, and PhDs with scholarships and medical specialisation, in Italy and abroad.

Persons who have been convicted of a criminal offence resulting in disqualification from holding public office or inability to contract with the public administration as a secondary penalty are not eligible for selection.

Art. 4

Applicants must submit, in the manner described in Article 5 below, the application to take part in the selection, duly signed in handwritten or digital form. An application without a signature will result in the **exclusion** of the candidate, except in the case of access through the use of the Public Digital Identity System (SPID) in which case the signature will not be necessary.

The application must be uploaded in its entirety (i.e., every page), **otherwise** the applicant will be **excluded** from the selection.

Applicants must enclose the following with their application for participation in the selection, **under penalty of exclusion**:

qualification, the year it was awarded and the mark obtained) and the publications and other qualifications held, indicating for each one all the identification details necessary for the Board's assessment. **The application for participation counts as a declaration in lieu of certification of the declared academic qualification.** If the subject matter of the declaration is not clearly identified in terms of its nature, duration, time setting and institution concerned, the selection board will disregard it. The Administration reserves the right to carry out appropriate checks on the truthfulness of the content of the declarations made; in the event of a false declaration, the provisions of Article 76 of Presidential Decree no. 445/2000 and Articles 483, 485, and 486 of the Italian Criminal Code shall apply. The University will not take into account any certificates attached by candidates who are Italian citizens or citizens of a state belonging to the European Union.

- **Citizens of a non-European Union State** must submit documents and qualifications in Italian or English or one of the additional languages, if any, indicated in Annex A, under penalty of exclusion from the selection or, as the case may be, non-assessment.
Documents and titles, originally in a different language, must be accompanied by a translation, made by the candidate under his or her responsibility, into Italian or English or any other language indicated in Appendix A. With reference to the dissertation only, the translation may be limited to an extended abstract.
- **Citizens of a non-EU State regularly residing in Italy** may use declarations in lieu of certification only in respect of states, personal qualities or facts that can be certified or attested to by Italian public bodies, without prejudice to the special provisions contained in the laws and regulations governing immigration and the status of foreigners.
- **Citizens of non-EU states authorised to reside in Italy** may use the aforementioned declarations in cases where they are produced pursuant to international conventions between Italy and the declarant's country of origin.

Applicants may also enclose with their application for assessment purposes their publications and any other qualification deemed useful to prove their qualification in relation to the research programme described in Annex A and to certify any research activity carried out in public and/or private entities (with the indication of the starting date and duration). The submission modalities are similar to those indicated in point 4 of the previous paragraph.

Only the qualifications possessed by the candidate on the date of submission of the application for selection and presented in accordance with Article 5 will be assessed.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of mandatory documents, failure to sign the application to take part in the selection or submission of the application in a manner other than that provided for in this call will be communicated to the parties concerned exclusively by email to the email address indicated in the application to take part in the selection.

DECRETO RETTORALE

Art. 6

The selection test takes place according to the modalities set out in Annex A.

The test will aim to ascertain the candidates' preparation, experience and research aptitude. It will consist of an assessment of the professional scientific curriculum, publications and titles submitted, and an interview, where applicable.

Failure of the candidate to attend the interview will be considered as withdrawal from the selection, whatever the cause.

Candidates who intend to avail themselves of the benefits provided for by Article 20 of Law no. 104 of 1992 (need for assistance, possible use of additional time for the performance of examination tests) in relation to their disability situation, must declare this and accompany the application with appropriate medical certification in order to allow the Administration to prepare in time the means and tools to guarantee the statutory benefits; failure to submit the medical certification exempts the Administration from any obligation in this regard.

Art. 7

The Competition Selection Board is identified in Annex A to this call, of which it forms an integral part. At its first meeting, the Board appoints the Chairperson and the Secretary taking the minutes, and establishes the criteria and procedures for assessing the qualifications and the interview, where applicable.

The results of the assessment must be made known to the parties concerned at the interview, where provided for.

The Board can attribute to the selection a total number of 100 points (one hundred hundredths). At the end of its work, the Board formulates the overall merit list based on the total marks obtained by each candidate and draws up the minutes of the competition operations.

The grant may be awarded, subject to the ranking list, to candidates who have obtained a minimum overall mark of 70/100 (seventy hundredths).

The Board's judgement is final on the merits.

The ranking list will be made public exclusively by publication on the University's official notice board; the outcome of the assessment will not be the subject of personal communication to candidates.

Those who do not declare their acceptance of the research grant and do not present themselves at the structure where the research activities are to be carried out to sign the contract by the deadline communicated by the same to the email address indicated by the candidate in the application shall forfeit their right to the research grant, except for health reasons or reasons of force majeure duly documented and promptly notified.

Testo in italiano:

L'attività dei due assegni di ricerca si colloca nel quadro del progetto PRIN 2022 PNRR 'DOBIPS - Data Oriented Biblical Paratext Studies', dedicato all'analisi e alla rappresentazione critica e digitale dei paratesti biblici, in particolare nelle Bibbie carolingie, atlantiche e beneventane.

L'obiettivo scientifico del progetto è l'avanzamento interdisciplinare della conoscenza e delle metodologie di analisi dei paratesti per lo studio della trasmissione e ricezione dei testi biblici latini, mettendo in luce la dinamicità dell'uso e della circolazione delle Scritture nei loro aspetti testuali e materiali e superando la percezione ancora diffusa del testo sacro come statico, immutabile ed esogeno.

La necessità di esplorare i paratesti, ossia gli elementi che accompagnano il contenuto testuale nei manoscritti o nelle pagine a stampa e ne guidano l'interpretazione, è stata sottolineata dalle più recenti tendenze degli studi: solo negli ultimi decenni infatti è emersa la loro importanza socio-culturale, storica e filologica. Di particolare interesse sono i paratesti biblici, che costituiscono preziosi frammenti lasciati dagli allestitori dei codici e dalle comunità di fruitori e lettori. Questi elementi hanno influenzato l'interpretazione e la trasmissione delle Scritture, adattandoli alle esigenze interne. Le raccolte di Bibbie prese in considerazione (Bibbie carolingie, con un focus sulle 'Bibbie Alcuiniane Giganti'; le Bibbie Atlantiche e le Bibbie in scrittura beneventana) contengono diversi apparati paratestuali, ciascuno dei quali trasmette messaggi distinti: l'esplorazione su larga scala di questi elementi porterà nuove informazioni su contesti di produzione e fruizione finora inesplorati o ancora enigmatici.

I due principali risultati previsti dal progetto di ricerca consistono in:

1. un database open-access dedicato ai paratesti biblici, che censisca la struttura dei manoscritti biblici considerati dalla ricerca in termini di: ordine dei libri; materiale prefatorio; presenza di ulteriori paratesti (intitolazioni iniziali e finali, sticomelia, iniziali decorate);

DECRETO RETTORALE

2. l'edizione critica digitale dei *capitula* premessi ai libri dell'Ottateuco nella tradizione manoscritta considerata.

L'Unità di Ricerca di Udine si occuperà in particolare della produzione manoscritta dello scriptorium di Tours, estendendo inoltre il confronto alla documentazione superstita di età pre-carolingia e carolingia.

Gli assegnisti collaboreranno a stretto contatto con il gruppo di ricerca contribuendo:

- al censimento del materiale testuale e paratestuale dei manoscritti biblici trascritti entro il IX secolo (in particolare le Bibbie prodotte a Tours);
- all'inserimento dei dati nel database predisposto;
- alla collazione e edizione critica dei *capitula* presenti nelle Bibbie oggetto di indagine;
- alla codifica dell'edizione digitale.

Competenze pregresse nei linguaggi di codifica che saranno utilizzati (Maurotex, TEI) saranno titolo preferenziale ma non costituiscono un pre-requisito indispensabile, e il loro apprendimento potrà essere previsto come supplemento formativo nell'ambito delle attività dell'assegnato.

Text in English:

The activity of the two research grants is situated within the framework of the PRIN 2022 PNRR 'DOBIPS - Data Oriented Biblical Paratext Studies' project, which is dedicated to the critical analysis and digital representation of biblical paratexts, with a particular focus on those of the Carolingian, Atlantic, and Beneventan traditions.

The scientific aim of the project is to foster cross-disciplinary approaches in both knowledge and methodologies for analyzing paratexts in the study of the transmission and reception of Latin biblical texts, highlighting the dynamism of the use and circulation of the Scriptures in their textual and material aspects and overcoming the still widespread perception of the sacred text as static, immutable, and exogenous.

The need to explore the paratexts, i.e., the elements that accompany the textual content in manuscripts or printed pages and guide its interpretation, has been highlighted by the latest scholarly trends. It is only in the last few decades that the socio-cultural, historical, and philological importance of paratexts has been acknowledged. Biblical paratexts, in particular, are invaluable witnesses left by the compilers of the manuscripts and by the communities of users and readers. These elements have influenced the interpretation and transmission of the Scriptures, tailoring them to fit internal communities' needs. The corpora of Bibles under consideration (including Carolingian Bibles, with a focus on the 'Giant Alcuinian Bibles', Atlantic Bibles, and the Bibles in Beneventan script) feature various paratextual apparatuses, each conveying distinct messages: the large-scale exploration of these elements will bring new information on contexts of production and utilisation that have so far been unexplored or still enigmatic.

The research project aims to achieve two primary outcomes:

1. the creation of an open-access database dedicated to biblical paratexts, which will catalog the structure of the biblical manuscripts considered by the research in terms of: order of books; prefatory material; presence of further paratexts (such as initial and final rubrics, stichometry, decorated initials);
2. the publication of a digital scholarly edition of the chapter headings prefixed to the books of the Octateuch in the manuscript tradition considered.

The Research Unit of Udine will focus in particular on the manuscript production from the Tours scriptorium, expanding the comparison to include surviving pre-Carolingian and Carolingian documentation.

The research grants will collaborate closely with the research group by contributing:

- to the survey of the textual and paratextual material of the biblical manuscripts transcribed within the ninth century (in particular the Bibles produced in Tours);
- to the data-entry into the prepared database;
- to the collation and critical edition of the chapters present in the Bibles under investigation;

DECRETO RETTORALE

- to the encoding of the digital edition.

Prior experience in the encoding languages that will be used (Maurotex, TEI) will be considered an advantage but is not an essential prerequisite. The learning of these skills can be anticipated as a supplementary training component within the grant activities.
