

Decree of the Rector n. 689 of 23/07/2024

Competition for awarding 1 research grant at the University of Udine

DISCLAIMER:

The official and legally binding call for applications is in Italian only.

This document cannot be used for legal purposes and is only meant to provide information in English on the call for applications (Decree of the Rector n. 689 of 23/07/2024). Please refer to the official call published on: <https://www.uniud.it/it/albo-ufficiale>

Any change and integration will be made available on the above-mentioned web page. Therefore, no personal written communication regarding the examination date and/or competition results shall be provided to applicants.

Annex 1

Call for applications for the award of 1 grant for the performance of research activities at the University of Udine, in the humanities and social sciences sectors (art. 5, c. 29-33 of the Regional Law 34/2015), on the topic "Collective catering in Friuli Venezia Giulia: an analysis of sustainability along the supply chain" SSD: ECON-10/A - SECS-P/13, before D.M. 639/2024 (principal investigator, Paola Geatti)

Art. 1

A selection proceeding is hereby announced for the award of 1 research grant at the University of Udine for the performance of the research activity identified in Annex A, which forms an integral and substantial part of this call. The research grant is linked to the research project on which it is based and is subject to the corresponding financial coverage.

The grant may be renewed with the winner in accordance with the provisions of Article 22 of Law no. 240 of 30 December 2010 (in the text prior to Leg. Decree no. 36 of 30 April 2022, converted with amendments by Law no. 79 of 29 June 2022) and the Regulations of the University of Udine for the awarding of research grants issued by Rector's Decree no. 182 of 31 March 2021, in the presence of a positive assessment by the scientific supervisor of the activity carried out by the research fellow, adequate scientific justification and related financial coverage, within the limits set out in Article 3, letters b) and c) below.

The research grant does not entitle the successful candidate to any rights as regards access to University roles.

The winner of the selection procedure must be resident or domiciled in the territory of the Autonomous Region of Friuli Venezia Giulia on the starting date of the research grant.

The research grant referred to in this announcement is aimed at people aged up to 40 years old on the date of submission of the application.

Any personal communication to candidates relating to this selection will be sent exclusively to the email address indicated in the application form.

Art. 2

The activities covered by the research grant referred to in this call for competition and the admission requirements are indicated and described in Annex A. Failure to meet the admission requirements at the time of applying shall result in the **exclusion** of the candidate from the selection process.

Possession of a PhD qualification or equivalent qualification obtained abroad or, for the sectors concerned only, of a medical specialisation qualification accompanied by an adequate scientific production, constitutes a preferential requirement for the awarding of the grant envisaged for this selection, if it has not been mentioned as an admission requirement.

The Selection Board shall assess, for the sole purpose of admission to the competition, the suitability of any qualification obtained abroad, without prejudice to the assessment of the medical specialisation qualification to which Article 38, paragraph 3.1 of Legislative Decree 165/2001, as amended, and the relevant Community regulations apply.

The Board assesses the qualification obtained abroad based on the relevant documentation enclosed with the application to take part in the selection and may exclude the candidate if the submitted documentation does not provide sufficient elements for the assessment.

Candidates are therefore invited to enclose all documentation in their possession relating to their qualifications in order to provide the Board with sufficient elements to assess their position.

Candidates are admitted to the selection process subject to a reservation and their exclusion, for failure to meet the requirements, may be ordered at any time by reasoned decision.

Art. 3

The research grant referred to in this call cannot be awarded to the following subjects:

- a) Employees of Universities and the entities referred to in Article 22(1) of Law no. 240 of 30 December 2010 (in the text prior to Leg. Decree no. 36 of 30 April 2022, converted with amendments by Law no. 79 of 29 June 2022).
- b) Recipients of previous research grants pursuant to Law no. 240 of 30 December 2010, for the maximum period allowed by the regulations, excluding the period in which the grant was received in conjunction with a PhD, up to the legal duration of the relevant course.
- c) Those who have already been awarded research grants and fixed-term researcher contracts pursuant to Law no. 240 of 30 December 2010 for a total of 12 years, even if not consecutive.
- d) Those who have a degree of kinship or relationship, up to and including the fourth degree, with:
 - The Rector, the Director General or a member of the Board of Directors of the University of Udine.
 - The principal investigator or a professor/researcher belonging to the department or structure of interest where the research grant activity takes place.

The research grant referred to in this call cannot be cumulated with the following:

- a) Awarded scholarships of any kind, except those granted by national or foreign institutions useful for supplementing, by means of stays abroad, the fellow's training or research activities.
- b) Other research grants.
- c) Employment relationships, even if part-time, without prejudice to the provisions of the regulations for employees of public administrations.

The grant referred to in this call is also incompatible with simultaneous attendance of degree courses, master's degrees, and PhDs with scholarships and medical specialisation, in Italy and abroad.

Persons who have been convicted of a criminal offence resulting in disqualification from holding public office or inability to contract with the public administration as a secondary penalty are not eligible for selection.

Art. 4

Applicants must submit, in the manner described in Article 5 below, the application to take part in the selection, duly signed in handwritten or digital form. An application without a signature will result in the **exclusion** of the candidate, except in the case of access through the use of the Public Digital Identity System (SPID) in which case the signature will not be necessary.

The application must be uploaded in its entirety (i.e., every page), **otherwise** the applicant will be **excluded** from the selection.

Applicants must enclose the following with their application for participation in the selection, **under penalty of exclusion**:

1. The professional scientific *curriculum vitae* in Italian or English or one of the additional languages, if any, indicated in Annex A, highlighting the candidate's aptitude for carrying out and implementing the research programme.
2. Copy of valid identity document or other identification document. Citizens of non-EU countries must enclose a copy of their passport.
3. Limited to citizens of non-EU states residing or authorised to reside in Italy, a copy of their residence permit or authorisation to reside in Italy.
4. For candidates who cannot provide a self-certification under the conditions set out below, documentation proving possession of the academic qualification required for admission to the selection. Possession of a higher academic qualification does not exempt the candidate from producing such documentation, which, if missing, will result in exclusion:
 - **Candidates who are Italian citizens or citizens of a European Union Member State** must submit a declaration in lieu of certification and, if necessary, a notarial deed regarding the academic qualification needed for admission (indicating the academic qualification, the academic institution awarding the qualification, the year it was awarded and the mark obtained) and the publications and other qualifications held, indicating for each one all the identification details necessary for the Board's assessment. **The application for participation counts as a declaration in lieu of certification of the declared academic qualification.** If the subject matter of the declaration is not clearly identified in terms of its nature, duration, time setting and institution concerned, the selection board will disregard it. The Administration reserves the right to carry out appropriate checks on the truthfulness of the content of the declarations made; in the event of a false declaration, the provisions of Article 76 of Presidential Decree no. 445/2000 and Articles 483, 485, and 486 of the Italian Criminal Code shall apply. The University will not take into account any

certificates attached by candidates who are Italian citizens or citizens of a state belonging to the European Union.

- **Citizens of a non-European Union State** must submit documents and qualifications in Italian or English or one of the additional languages, if any, indicated in Annex A, under penalty of exclusion from the selection or, as the case may be, non-assessment.

Documents and titles, originally in a different language, must be accompanied by a translation, made by the candidate under his or her responsibility, into Italian or English or any other language indicated in Appendix A. With reference to the dissertation only, the translation may be limited to an extended abstract.

- **Citizens of a non-EU State regularly residing in Italy** may use declarations in lieu of certification only in respect of states, personal qualities or facts that can be certified or attested to by Italian public bodies, without prejudice to the special provisions contained in the laws and regulations governing immigration and the status of foreigners.
- **Citizens of non-EU states authorised to reside in Italy** may use the aforementioned declarations in cases where they are produced pursuant to international conventions between Italy and the declarant's country of origin.

Applicants may also enclose with their application for assessment purposes their publications and any other qualification deemed useful to prove their qualification in relation to the research programme described in Annex A and to certify any research activity carried out in public and/or private entities (with the indication of the starting date and duration). The submission modalities are similar to those indicated in point 4 of the previous paragraph.

Only the qualifications possessed by the candidate on the date of submission of the application for selection and presented in accordance with Article 5 will be assessed.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of mandatory documents, failure to sign the application to take part in the selection or submission of the application in a manner other than that provided for in this call will be communicated to the parties concerned exclusively by email to the email address indicated in the application to take part in the selection.

Art. 5

Registration for this selection will begin on August 9, 2024 at 2:00 pm (Italian time) and will end on September 3, 2024 at 2:00 pm (Italian time).

The application to take part in the selection must be completed, under penalty of exclusion, using the appropriate online procedure, available at <https://pica.cineca.it/>.

For those who do not already have a user account, the procedure involves a registration phase for the applicant, and a subsequent phase for completing the application online.

Once completed, the application must be signed in the manner (handwritten signature, with attached identity document, or digital signature) described in the online procedure, under penalty of exclusion from the selection. The application does not have to be signed if the above-mentioned online procedure is accessed using the Sistema Pubblico di Identità Digitale (SPID - Digital ID Public System). In the case of a handwritten signature, the applicant must upload the application to the system in its entirety. The information entered in the application form shall constitute a declaration in lieu of certification and affidavit, pursuant to Articles 46 and 47 of Presidential Decree no. 445/2000.

The qualifications referred to in Article 4 must be attached to the application in .pdf format. Individual files, in .pdf format, may not exceed 30MB in size.

It is not permitted to submit attachments to the application in the form of links to files residing on "online storage/file sharing" services or web pages. Reference may not be made to documents or publications submitted to this or other administrations or documents attached to the application for participation in another selection procedure.

The application for participation in the selection is automatically sent to the University of Udine with the final closure of the online procedure.

The University Administration:

- accepts no liability if it is impossible to read the submitted documentation in electronic format due to damaged files;
- does not accept or take into consideration qualifications or documents received in paper form or by any other means than those specified in this article.

The Administration accepts no liability in the event of incorrect indication by the candidate of his/her email address or in the event of failure or delay in communicating a change in the email address indicated in the application, nor for any digital transmission errors attributable to third parties, unforeseeable circumstances or force majeure.

Applicants are advised not to wait until the last few days before the deadline to submit their application. The University accepts no liability for any malfunctions due to technical problems and/or overloading of the communication line and/or application systems.

Art. 6

The selection test takes place according to the modalities set out in Annex A.

The test will aim to ascertain the candidates' preparation, experience and research aptitude. It will consist of an assessment of the professional scientific curriculum, publications and titles submitted, and an interview, where applicable.

Failure of the candidate to attend the interview will be considered as withdrawal from the selection, whatever the cause.

Candidates who intend to avail themselves of the benefits provided for by Article 20 of Law no. 104 of 1992 (need for assistance, possible use of additional time for the performance of examination tests) in relation to their disability situation, must declare this and accompany the application with appropriate medical certification in order to allow the Administration to prepare in time the means and tools to guarantee the statutory benefits; failure to submit the medical certification exempts the Administration from any obligation in this regard.

Art. 7

The Competition Selection Board is identified in Annex A to this call, of which it forms an integral part. At its first meeting, the Board appoints the Chairperson and the Secretary taking the minutes, and establishes the criteria and procedures for assessing the qualifications and the interview, where applicable.

The results of the assessment must be made known to the parties concerned at the interview, where provided for.

The Board can attribute to the selection a total number of 100 points (one hundred hundredths). At the end of its work, the Board formulates the overall merit list based on the total marks obtained by each candidate and draws up the minutes of the competition operations.

The grant may be awarded, subject to the ranking list, to candidates who have obtained a minimum overall mark of 70/100 (seventy hundredths).

The Board's judgement is final on the merits.

The ranking list will be made public exclusively by publication on the University's official notice board; the outcome of the assessment will not be the subject of personal communication to candidates.

Those who do not declare their acceptance of the research grant and do not present themselves at the structure where the research activities are to be carried out to sign the contract by the deadline communicated by the same to the email address indicated by the candidate in the application shall forfeit their right to the research grant, except for health reasons or reasons of force majeure duly documented and promptly notified.

Candidates holding qualifications obtained abroad, if successful, must submit the following, if not already attached to the application:

- **For degrees issued by a country that is a party to the Lisbon Convention (<https://www.enic-naric.net/>), the following documentation:**
 - *Supplement* Diploma or similar certificate in English issued by the competent University.
 - "Certificate of Verification of Foreign Qualification - CIMEA" issued by CIMEA (Centre for Information on Academic Mobility and Equivalences) via the "*diplome*" service at <https://cimea.diplo-me.eu/udine/#/auth/login>
- **For degrees issued by a country not party to the Lisbon Convention (<https://www.enic-naric.net/>), one of the following options:**
 - Declaration of the on-site value of the qualification held and the certificate relating to the qualification with examinations and grades. The certificate in a language other than Italian or English must be accompanied by an official translation into one of those languages (certified by the competent diplomatic-consular authority or sworn at a court in Italy).
 - "Certificate of Comparability and Verification of Foreign Qualifications - CIMEA" issued by CIMEA (Centre for Information on Academic Mobility and Equivalences) via the "*diplome*" service at <https://cimea.diplo-me.eu/udine/#/auth/login>

If the aforementioned documentation is not available at the time of the conclusion of the contract, the candidate must prove that he or she has requested it and submit it as soon as possible; if it is not submitted within six months of the start of the contract, the candidate will forfeit the contract and will be required to repay any related sums received to date.

Art. 8

The research activity cannot be started before the contract defining the terms of the collaboration is signed.

The activity covered by the research grant must have the following characteristics:

- a) Be carried out in the context of the research programme covered by the grant and not be a purely technical support to the same.
- b) Close connection with the implementation of the research programme that is the subject of the relationship with the winner.
- c) Having a continuous and in any case temporally defined character, not merely occasional, and in coordination with the overall activity of the University.
- d) Performance in a condition of autonomy, within the sole limits of the programme prepared by the Head of the same, without predetermined working hours.

The research fellow is obliged to submit a detailed written report on the work carried out and the results achieved, together with the opinion of the scientific supervisor, to the reference structure within the deadlines laid down in the contract. The research fellow will also have to submit interim reports and time sheets if requested by the reference structure and/or the scientific supervisor.

The research fellow is bound to strict confidentiality regarding the data and information to which he/she becomes privy in the course of his/her research activity. At the request of the scientific coordinator, he/she will be required to sign an appropriate confidentiality agreement.

The industrial property rights to the results obtained by the research fellow in the performance of the research activity belong exclusively to the University, without prejudice to the moral right of the research fellow to be recognised as an author or inventor.

The University reserves the right to revoke this call for competition for reasons of public interest, should the research project and/or the financial backing on which the research grant is based cease to exist. Should these causes arise after the contract has been signed, the University may terminate the contract without notice.

Art. 9

The following apply to the grant under this call:

- On tax matters, the provisions of Article 4 of Law no. 476 of 13 August 1984, as amended.
- On social security matters, the provisions of Article 2(26) et seq. of Law no. 335 of 8 August 1995, as amended.
- On compulsory maternity leave, the provisions of the Ministerial Decree of 12 July 2007.
- On sick leave, the provisions of Article 1(788) of Law No 296 of 27 December 2006, as amended.

During the period of compulsory maternity leave, the allowance paid by INPS pursuant to Article 5 of the Ministerial Decree of 12 July 2007 is supplemented by the University up to the full amount of the research grant.

The grant will be paid in monthly instalments in arrears.

Art. 10

The data collected as part of the procedure referred to in Article 5 is necessary for the proper management of the selection procedure, for the possible subsequent management of the research grant and purposes related to the management of the services provided by the University. The University of Udine is the Data Controller. At any time, the data subject may request access, rectification and, compatibly with the institutional purposes of the University, cancellation and restriction of processing or may object to the processing of his/her data. He/she can always lodge a complaint with the Italian Data Protection Authority. The full information is available on the University of Udine website in the "Privacy" section accessible from the home page www.uniud.it Direct Link: <https://www.uniud.it/it/pagine-speciali/guida/privacy>

Art. 11

For any matters not expressly mentioned in this call, reference is made to the relevant regulations in force cited in the introduction and to the "Internal regulations for the award of research grants pursuant to Law no. 240 of 30 December 2010" of the University of Udine issued by Rector's Decree no. 182 of 31 March 2021 and to the Directives for the preparation and implementation of projects and the presentation of funding applications for the activation of research grants (Regional Law 34/2015 art. 5 c. 29-33), approved by the Regional Council with resolution no. 400 of 15 March 2024.

Art. 12

The official in charge of the proceeding is Dr. Sandra Salvador, Head of the Research Services Area of the University of Udine.

The reference office at the University of Udine is the "Area Servizi per la Ricerca - Ufficio Formazione per la Ricerca", Via Mantica 31 - 33100 Udine.

To request information on the call, please complete the following form available on the University of Udine website: https://helpdesk.uniud.it/SubmitSR.jsp?type=req&accountId=universityofudine&populateSR_id=42105

Annex A

Responsabile scientifico della ricerca / Principal investigator:

Nome e cognome / Name and surname: Paola Geatti
Qualifica / Position: Ricercatrice Universitaria / Researcher
Dipartimento / Department: Scienze Economiche e Statistiche (DIES) / Economics and Statistics
Area MUR / Research field: 13 – Scienze economiche e statistiche
Settore concorsuale e Settore scientifico disciplinare / Scientific sector: 13/ECON-10; ECON-10/A - SECS-P/13, ante D.M. 639/2024 (Scienze merceologiche)

Titolo dell'assegno di ricerca / Topic of the research fellowship "assegno di ricerca":

I bandi sono consultabili dal sito dell'Ateneo, del MUR e di Euraxess / The calls are available on the University, MUR and Euraxess websites

Testo in italiano:

La ristorazione collettiva in Friuli Venezia Giulia: un'analisi della sostenibilità lungo la filiera.

Text in English:

Collective catering in Friuli Venezia Giulia: an analysis of sustainability along the supply chain.

Obiettivi previsti e risultati attesi del programma di ricerca in cui si colloca l'attività dell'assegnista di ricerca / Foreseen objectives and results of the research programme performed by the research fellow "assegnista di ricerca":

Testo in italiano:

La ristorazione collettiva gioca un ruolo cruciale nel contesto italiano, in particolar modo in Friuli Venezia Giulia, dove circa l'11% dei residenti utilizza mediamente questo servizio (dato leggermente più alto rispetto alla media nazionale che si aggira attorno all'8%) e vengono serviti quotidianamente più di 130.000 pranzi, di cui oltre il 60% riguardano la ristorazione scolastica. Secondo una recente indagine, gli edifici scolastici dotati di "ambito funzionale dedicato alla mensa" sono 354 (35%), con un costo medio per pasto tra i più bassi in Italia sia per la scuola dell'infanzia (3,68€ contro una media nazionale di 4,08€) che per quella primaria (4,07€ contro una media nazionale di 4,13€). In parallelo, il Friuli Venezia Giulia è una delle poche regioni che è stata in grado di contenere negli ultimi quattro anni il rialzo esponenziale dei prezzi a causa prima della pandemia di COVID-19 e poi del conflitto in Ucraina, arrivando addirittura ad una loro leggera diminuzione per la scuola di infanzia nel periodo 2022/2023. Riguardo l'offerta alimentare proposta in termini di equilibrio nutrizionale, qualità e sostenibilità, l'osservatorio FoodInsider ha stilato una classifica nazionale, ponendo Udine al 29° posto e Pordenone al 37° posto, entrando entrambi così nel range di punteggio entro il quale il menù è valutato "buono".

I dati sopra riportati presentano un contesto in cui la ristorazione collettiva, negli anni, ha assunto un ruolo di fondamentale importanza, determinante dal punto di vista economico e sociale. Per quanto riguarda il primo, l'intero settore coinvolge diversi comparti economici strettamente correlati tra loro, che compongono il sistema agroalimentare, quali la produzione primaria, la trasformazione dei prodotti, la distribuzione, la preparazione e la somministrazione dei pasti. A fare da contorno ci sono i servizi sanitari per l'elaborazione e approvazione dei menù in base a criteri nutrizionali, e quelli amministrativi/legislativi per la stesura di contratti e preparazione di appalti. Per quanto riguarda gli aspetti sociali, invece, l'aver mantenuto quasi inalterati i prezzi del servizio testimonia un'attenzione alle famiglie, che si manifesta anche in percorsi di educazione alimentare rivolti ai bambini, i quali non solo partecipano ad un momento conviviale e inclusivo condividendo un pasto con altri compagni anche di diverse comunità, ma imparano le basi di uno stile di vita salutare sviluppando una propria coscienza alimentare. La dimensione su cui, però, ad oggi mancano dati e misurazioni certe è quella ambientale. Sebbene la mensa sia riconosciuta come una leva essenziale per incidere nello sviluppo sostenibile del territorio

entro il quale si colloca, promuovendo lo sviluppo delle filiere agroalimentari locali e supportando le imprese del territorio, riducendo gli impatti ambientali e sviluppando percorsi di educazione ambientale nelle scuole, ancora poco si sa in termini economico-monetari di cosa comporti dal punto di vista della sostenibilità preparare un pasto da servire nelle mense pubbliche e/o private.

La presente proposta di ricerca mira a contribuire ad una maggiore e più approfondita conoscenza dell'impatto del settore nella Regione Friuli Venezia Giulia in termini di sostenibilità economica, sociale e ambientale lungo tutta la filiera. L'obiettivo dell'assegno è quello di ricostruire e quantificare i flussi di materia prima necessari a supportare la fornitura per la ristorazione in ambito scolastico (istruzione primaria, secondaria e universitaria) in Regione. Con il presente progetto di ricerca si intende procedere alla raccolta di dati relativi ai consumi e alle tariffe per ogni pasto, offrendo una panoramica delle dinamiche che connotano la fase finale del servizio, cioè il consumo da parte degli utenti, allo scopo di individuare le ripercussioni sul sistema agroalimentare locale. Il presente progetto di ricerca si propone, quindi, di comprendere questi aspetti, in particolare confrontando la domanda agroalimentare con la relativa offerta a livello locale, con l'obiettivo di predisporre le basi per la trasformazione del settore in chiave sostenibile. Inoltre, i risultati che si otterranno saranno il punto di partenza per la futura quantificazione degli impatti ambientali (tramite, ad esempio, studi di Life Cycle Assessment) e la loro monetizzazione (adottando gli strumenti del True Cost Accounting e True Price).

Text in English:

Canteens play a crucial role in the Italian context, especially in Friuli Venezia Giulia, where about 11 percent of residents use this service on average (slightly higher than the national average of around 8 percent) and more than 130,000 lunches are served daily, of which more than 60 percent involve school catering. According to a recent survey, there are 354 school buildings with a "functional area dedicated to canteen" (35 percent), with an average cost per meal among the lowest in Italy for both preschool (€3.68 versus a national average of €4.08) and primary school (€4.07 versus a national average of €4.13). In parallel, Friuli Venezia Giulia is one of the few regions that has been able to contain in the last four years the exponential rise in prices due to the COVID-19 pandemic firstly and then the conflict in Ukraine, even going so far as to slightly decrease them for kindergarten in the 2022/2023 period. Regarding the proposed food supply in terms of nutritional balance, quality and sustainability, the FoodInsider observatory has compiled a national ranking, placing Udine in 29th place and Pordenone in 37th place, thus both entering the score range within which the menu is considered "good".

The above data present a context in which mass catering, over the years, has taken on a fundamentally important role, decisive both economically and socially. Regarding the former, the entire sector involves several closely related economic sectors in the agribusiness system, i.e. agricultural production, agri-food product processing, distribution, preparation and serving of meals. In addition, there are health services for the development and approval of menus based on nutritional criteria, and administrative/legislative services for the drafting of contracts and preparation of tenders. Moreover, as far as social aspects are concerned, the fact that service prices have remained almost unchanged testifies to a special attention to families, which is also manifested in food education courses aimed at children, who not only participate in a convivial and inclusive moment by sharing a meal with other classmates even from different communities, but also learn the basics of a healthy lifestyle by developing their own food consciousness. The dimension on which, however, there is a lack of firm data and measurements to date is the environmental dimension. Although the canteen is recognized as an essential lever to affect in the sustainable development of the area within which it is located, promoting the development of local food supply chains and supporting local businesses, reducing environmental impacts and developing environmental education paths in schools, little is still known in economic-monetary terms about what preparing a meal to be served in public and/or private canteens entails from a sustainability point of view.

This project aims to contribute to a greater and deeper understanding of the impact of the sector in the Friuli Venezia Giulia Region in terms of economic, social and environmental sustainability throughout the supply chain. The objective of the research is to reconstruct and quantify the raw material flows required to support the supply for school catering (primary, secondary and university education) in the Region. With this research project, it is intended to proceed with the collection of data on consumption and fees per meal, providing an overview of the

dynamics that connote the final phase of the service, i.e., consumption by users, in order to identify the repercussions on the local food system. This research project, therefore, aims to understand these aspects, particularly by comparing agri-food demand with the relative supply at the local level, with the goal of laying the groundwork for the transformation of the sector in a sustainable direction. In addition, the results that will be obtained will be the starting point for future quantification of environmental impacts (through, for example, Life Cycle Assessment studies) and their monetization (by adopting the tools of True Cost Accounting and True Price).

Ricadute delle attività progettuali sul territorio della Regione Friuli Venezia Giulia / Impact of the project activities on the territory of Friuli Venezia Giulia:

Testo in italiano:

In sintonia con quanto richiesto dal bando, con il progetto qui proposto ci si pone l'obiettivo, oltre che di valorizzare il capitale umano operante nel sistema accademico regionale nell'ambito delle scienze sociali, di fornire ai decisori istituzionali e a quelli privati uno strumento utile per gestire, in sintonia con i principi della sostenibilità, la ristorazione collettiva in Friuli Venezia Giulia. Ci si attende che le ricadute sul sistema agroalimentare regionale della proposta attività di ricerca siano decisamente positive, in quanto la ristorazione collettiva rappresenta un rilevante attore per il territorio locale, la cui gestione sostenibile è in grado di fungere da motore di sviluppo per numerose altre attività imprenditoriali poste lungo la filiera agroalimentare locale. La predisposizione di un modello di analisi della sostenibilità della ristorazione collettiva, inoltre, sarà uno strumento che potrà essere applicato anche in futuro.

Text in English:

In keeping with the requirements of the call for proposals, with the project proposed here we aim not only to enhance the human capital working in the regional academic system in the field of social sciences, but also to provide institutional and private decision-makers with a useful tool for managing, in tune with the principles of sustainability, collective catering in Friuli Venezia Giulia. The spillover effects on the regional agri-food system of the proposed research activity are expected to be decidedly positive, as collective catering represents a relevant actor for the local area, whose sustainable management is able to act as a development engine for numerous other entrepreneurial activities placed along the local agri-food chain. Moreover, the preparation of a model for analyzing the sustainability of collective catering will be a tool that can be applied in the future.

Struttura dell'Università di Udine e soggetto/i ospitante/i presso la quale verrà sviluppata l'attività di ricerca / Department or other structure of the University of Udine and host organizations where research activities will be carried out:

- Università degli Studi di Udine, Dipartimento di Scienze Economiche e Statistiche (DIES) / University of Udine, Department of economics and statistics;
- eFrame s.r.l. (almeno 1/3 del periodo di ricerca) / eFrame s.r.l. (at least 1/3 of the research period).

Durata dell'assegno di ricerca / Duration of the research fellowship "assegno di ricerca":

12 mesi / months

Importo lordo assegnista / Total grant net of deductions paid by financier:

€ 19.367,00

Finanziamento / Financed by:

Progetto di Ateneo ex L.R. 34 art. 5 c. 29-33, Regione Autonoma Friuli Venezia Giulia (Finanziamento anno 2024).

Requisiti di ammissione / Minimum qualifications necessary:

- Possesso di un diploma di laurea vecchio ordinamento (ante decreto 3 novembre 1999 n. 509) o di laurea specialistica/magistrale (ex decreto 3 novembre 1999 n. 509 e decreto 22 ottobre 2004 n. 270) o titolo equivalente conseguito all'estero. / University degree obtained before Decree n. 509 of 3 November 1999 or specialistic/Master's degree (post decree n. 509 of 3 November 1999 and decree n. 270 of 22 October 2004) or equivalent degree obtained abroad.
- Et  fino a quarant'anni alla data di presentazione della candidatura. / Age up to forty years at the date of application.

Modalit  di presentazione della documentazione oggetto di valutazione / Arrangements for the submission of documents:

La modalit  di presentazione della documentazione oggetto di valutazione   specificata all'art. 4 del bando. / The way of presenting the documentation under evaluation is specified in art. 4 of the present notice.

Ai fini valutativi, i candidati potranno presentare le pubblicazioni e ogni altro titolo ritenuto utile a comprovare la propria qualificazione in relazione al programma di ricerca descritto nell'Allegato A, nelle seguenti lingue: / For evaluation purposes, candidates may present publications and any other qualifications deemed useful to demonstrate their qualification in relation to the research program described in Attachment A, in the following languages:

- Italiano / Italian
- Inglese / English
