**Annex 1**

**Call for applications for the award of 1 grant for the performance of research activities at the University of Udine on the topic "Research project aimed at evaluating the outcomes and the social and economic impact of the Foundation's projects on territorial development" SSD: ECON-06/A (principal investigator, Andrea Garlatti)**

**Research grant funded by Fondazione Cassa di Risparmio di Gorizia**

**Art. 1**

A selection proceeding is hereby announced for the award of 1 research grant at the University of Udine for the performance of the research activity identified in Annex A, which forms an integral and substantial part of this call. The research grant is linked to the research project on which it is based and is subject to the corresponding financial coverage.

The grant may be renewed with the winner in accordance with the provisions of Article 22 of Law no. 240 of 30 December 2010 (in the text prior to Leg. Decree no. 36 of 30 April 2022, converted with amendments by Law no. 79 of 29 June 2022) and the Regulations of the University of Udine for the awarding of research grants issued by Rector's Decree no. 182 of 31 March 2021, in the presence of a positive assessment by the scientific supervisor of the activity carried out by the research fellow, adequate scientific justification and related financial coverage, within the limits set out in Article 3, letters b) and c) below.

The research grant does not entitle the successful candidate to any rights as regards access to University roles.

Any personal communication to candidates relating to this selection will be sent exclusively to the email address indicated in the application form.

#### Art. 2

The activities covered by the research grant referred to in this call for competition and the admission requirements are indicated and described in Annex A. Failure to meet the admission requirements at the time of applying shall result in the **exclusion** of the candidate from the selection process.

Possession of a PhD qualification or equivalent qualification obtained abroad or, for the sectors concerned only, of a medical specialisation qualification accompanied by an adequate scientific production, constitutes a preferential requirement for the awarding of the grant envisaged for this selection, if it has not been mentioned as an admission requirement.

The Selection Board shall assess, for the sole purpose of admission to the competition, the suitability of any qualification obtained abroad, without prejudice to the assessment of the medical specialisation qualification to which Article 38, paragraph 3.1 of Legislative Decree 165/2001, as amended, and the relevant Community regulations apply.

The Board assesses the qualification obtained abroad based on the relevant documentation enclosed with the application to take part in the selection and may exclude the candidate if the submitted documentation does not provide sufficient elements for the assessment.

Candidates are therefore invited to enclose all documentation in their possession relating to their qualifications in order to provide the Board with sufficient elements to assess their position.

Candidates are admitted to the selection process subject to a reservation and their exclusion, for failure to meet the requirements, may be ordered at any time by reasoned decision.

#### Art. 3

The research grant referred to in this call cannot be awarded to the following subjects:

- a) Employees of Universities and the entities referred to in Article 22(1) of Law no. 240 of 30 December 2010 (in the text prior to Leg. Decree no. 36 of 30 April 2022, converted with amendments by Law no. 79 of 29 June 2022).

The grant referred to in this call is also incompatible with simultaneous attendance of degree courses, master's degrees, and PhDs with scholarships and medical specialisation, in Italy and abroad.

Persons who have been convicted of a criminal offence resulting in disqualification from holding public office or inability to contract with the public administration as a secondary penalty are not eligible for selection.

#### Art. 4

Applicants must submit, in the manner described in Article 5 below, the application to take part in the selection, duly signed in handwritten or digital form. An application without a signature will result in the **exclusion** of the candidate, except in the case of access through the use of the Public Digital Identity System (SPID) in which case the signature will not be necessary.

The application must be uploaded in its entirety (i.e., every page), **otherwise** the applicant will be **excluded** from the selection.

Applicants must enclose the following with their application for participation in the selection, **under penalty of exclusion**:

- **Candidates who are Italian citizens or citizens of a European Union Member State** must submit a declaration in lieu of certification and, if necessary, a notarial deed regarding the academic qualification needed for admission (indicating the academic qualification, the academic institution awarding the qualification, the year it was awarded and the mark obtained) and the publications and other qualifications held, indicating for each one all the identification details necessary for the Board's assessment. **The application for participation counts as a declaration in lieu of certification of the declared academic qualification.** If the subject matter of the declaration is not clearly identified in terms of its nature, duration, time setting and institution concerned, the selection board will disregard it. The Administration reserves the right to carry out appropriate checks on the truthfulness of the content of the declarations made; in the event of a false declaration, the provisions of Article 76 of Presidential Decree no. 445/2000 and Articles 483, 485, and 486 of the Italian Criminal Code shall apply. The University will not take into account any certificates attached by candidates who are Italian citizens or citizens of a state belonging to the European Union.

- **Citizens of a non-European Union State** must submit documents and qualifications in Italian or English or one of the additional languages, if any, indicated in Annex A, under penalty of exclusion from the selection or, as the case may be, non-assessment.

Documents and titles, originally in a different language, must be accompanied by a translation, made by the candidate under his or her responsibility, into Italian or English or any other language indicated in Appendix A. With reference to the dissertation only, the translation may be limited to an extended abstract.

- **Citizens of a non-EU State regularly residing in Italy** may use declarations in lieu of certification only in respect of states, personal qualities or facts that can be certified or attested to by Italian public bodies, without prejudice to the special provisions contained in the laws and regulations governing immigration and the status of foreigners.
- **Citizens of non-EU states authorised to reside in Italy** may use the aforementioned declarations in cases where they are produced pursuant to international conventions between Italy and the declarant's country of origin.

Applicants may also enclose with their application for assessment purposes their publications and any other qualification deemed useful to prove their qualification in relation to the research programme described in Annex A and to certify any research activity carried out in public and/or private entities (with the indication of the starting date and duration). The submission modalities are similar to those indicated in point 4 of the previous paragraph.

Only the qualifications possessed by the candidate on the date of submission of the application for selection and presented in accordance with Article 5 will be assessed.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of mandatory documents, failure to sign the application to take part in the selection or submission of the application in a manner other than that provided for in this call will be communicated to the parties concerned exclusively by email to the email address indicated in the application to take part in the selection.

#### Art. 6

The selection test takes place according to the modalities set out in Annex A.

The test will aim to ascertain the candidates' preparation, experience and research aptitude. It will consist of an assessment of the professional scientific curriculum, publications and titles submitted, and an interview, where applicable.

Candidates who intend to avail themselves of the benefits provided for by Article 20 of Law no. 104 of 1992 (need for assistance, possible use of additional time for the performance of examination tests) in relation to their disability situation, must declare this and accompany the application with appropriate medical certification in order to allow the Administration to prepare in time the means and tools to guarantee the statutory benefits; failure to submit the medical certification exempts the Administration from any obligation in this regard.

#### Art. 7

The Competition Selection Board is identified in Annex A to this call, of which it forms an integral part. At its first meeting, the Board appoints the Chairperson and the Secretary taking the minutes, and establishes the criteria and procedures for assessing the qualifications and the interview, where applicable.

The results of the assessment must be made known to the parties concerned at the interview, where provided for.

The Board can attribute to the selection a total number of 100 points (one hundred hundredths). At the end of its work, the Board formulates the overall merit list based on the total marks obtained by each candidate and draws up the minutes of the competition operations.

The grant may be awarded, subject to the ranking list, to candidates who have obtained a minimum overall mark of 70/100 (seventy hundredths).

The Board's judgement is final on the merits.

The ranking list will be made public exclusively by publication on the University's official notice board; the outcome of the assessment will not be the subject of personal communication to candidates.

Those who do not declare their acceptance of the research grant and do not present themselves at the structure where the research activities are to be carried out to sign the contract by the deadline communicated by the same to the email address indicated by the candidate in the application shall forfeit their right to the research grant, except for health reasons or reasons of force majeure duly documented and promptly notified.

The research fellow will also have to submit interim reports and time sheets if requested by the reference structure and/or the scientific supervisor.

The industrial property rights to the results obtained by the research fellow in the performance of the research activity belong exclusively to the University, without prejudice to the moral right of the research fellow to be recognised as an author or inventor.

The University reserves the right to revoke this call for competition for reasons of public interest, should the research project and/or the financial backing on which the research grant is based cease to exist. Should these causes arise after the contract has been signed, the University may terminate the contract without notice.

#### Testo in italiano:

Nell'ambito della sua missione istituzionale, Fondazione Cassa di Risparmio di Gorizia sostiene iniziative a supporto del territorio. In coerenza con la sua missione, ed in ottemperanza al Protocollo d'intesa tra Associazione di Fondazioni e di Casse di Risparmio Spa e MEF, la Fondazione è tenuta a condurre una valutazione ex post dei risultati ottenuti dalle iniziative realizzate o finanziate. Il protocollo, in particolare specifica che la valutazione deve considerare "costi e obiettivi sociali raggiunti ove misurabili, tenuto conto anche per quanto possibile degli eventuali indicatori di efficacia preventivamente determinati sulla base di una attenta valutazione del rapporto costi/benefici.

In particolare, vista la sua rilevanza, emerge la necessità di valutare il progetto "CariGO GREEN", un programma di interventi integrati, promossi dalla Fondazione, al fine di favorire lo sviluppo turistico-culturale del territorio e caratterizzati da un approccio innovativo e sostenibile.

Al fine di soddisfare l'esigenza sinteticamente richiamata al punto precedente si propone un progetto articolato in quattro fasi logico - temporali:

#### Fase a. Ricognizione delle best practices in tema di rendicontazione

In questa fase si procederà alla ricognizione dei "modelli" presenti nella letteratura preminente e delle best practice in tema di rendicontazione, con particolare riferimento ai progetti di valorizzazione del territorio in chiave sostenibile.

#### Fase b. Clusterizzazione delle iniziative e definizione di variabili e metriche di impatto

In questa fase verrà effettuata una clusterizzazione (raggruppamento in classi omogenee) delle iniziative realizzate nell'ambito del programma, con l'obiettivo di identificare variabili e metriche specifiche, tanto

economico finanziarie, quanto di sostenibilità, strettamente aderenti alle condizioni specifiche delle realtà considerate. Tutti i progetti in oggetto, infatti, sono stati guidati dalla filosofia e dagli obiettivi dell'Agenda ONU 2030.

**Fase c. Definizione di un sistema di raccolta delle informazioni e modello di rendicontazione**

Eseguite queste analisi e progettazioni si procederà alla definizione di un sistema di raccolta delle informazioni semplificato in grado di permettere la rendicontazione dell'impatto dei progetti ed interventi facenti parte del programma. Il risultato tecnico di questa fase sarà la predisposizione di un documento, facilmente fruibile, di rendicontazione dei risultati del programma.

**Fase d. Conferma/revisione del modello e formalizzazione di linee guida**

In questa fase si procederà all'emanazione di specifiche linee guida relative più in generale alla rendicontazione delle attività della Fondazione, capitalizzando il modello costruito per il progetto CariGO GREEN.

La predisposizione di un modello di rendicontazione permetterà non solo di illustrare i progressi compiuti e le ricadute positive generate per il territorio dal programma in oggetto, ma fungerà anche da strumento di trasparenza e comunicazione verso gli stakeholder, rafforzando la fiducia e il rapporto con cittadini, istituzioni, imprese ed investitori.

**Text in English:**

As part of its institutional mission, the Foundation Cassa di Risparmio di Gorizia supports initiatives aimed at benefiting the local territory. In line with its mission and in compliance with general agreement between the Association of Foundations and Casse di Risparmio Spa and the Ministry of Economy and Finance (MEF), the Foundation is required to conduct an ex-post evaluation of the results achieved by the initiatives it has implemented or financed. The protocol specifically states that the evaluation must consider costs and the social objectives achieved, where measurable, also taking into account, as far as possible, any effectiveness indicators previously determined based on a careful cost-benefit analysis.

In particular, given its importance, there is a need to evaluate the "CariGO GREEN" project, a program of integrated initiatives promoted by the Foundation to encourage the tourism and cultural development of the territory, characterized by an innovative and sustainable approach.

In order to meet the need briefly mentioned above, a project is proposed and structured into three logical and temporal phases:

**Phase a. Review of best practices in reporting**

In this phase, a review of the "models" found in prominent literature and best practices in reporting will be conducted, with particular reference to projects aimed at enhancing the territory in a sustainable manner.

**Phase b. Clustering of initiatives and definition of impact variables and metrics**

In this phase, clustering (grouping into homogeneous classes) of the initiatives carried out within the program will be performed, with the objective of identifying specific variables and metrics, both economic-financial and sustainability-related, that closely adhere to the specific conditions of the contexts considered. Indeed, all the projects in question have been guided by the philosophy and objectives of the UN Agenda 2030.

**Phase c. Definition of an information collection system and reporting model**

Upon completion of these analyses and designs, a simplified information collection system will be defined to enable the reporting of the impact of the projects and interventions included in the program. The technical outcome of this phase will be the preparation of an easily accessible document for reporting the results of the program.

**Phase d. Confirmation/revision of the model and formalization of guidelines**

In this phase, specific guidelines will be issued regarding the reporting of the Foundation's activities more generally, capitalizing on the model developed for the CariGO GREEN project.

The preparation of a reporting model will not only illustrate the progress made and the positive impacts generated for the territory by the program in question, but it will also serve as a tool for transparency and communication with stakeholders, strengthening trust and relationships with citizens, institutions, businesses, and investors.
