Decree of the Rector n. 460 of 15/06/2023
Competition for awarding 1 research grant at the University of Udine

DISCLAIMER:
The official and legally binding call for applications is in Italian only. This document cannot be used for legal purposes and is only meant to provide information in English on the call for applications (Decree of the Rector n. 460 of 15/06/2023). Please refer to the official call published on: https://www.uniud.it/it/albo-ufficiale

Any change and integration will be made available on the above mentioned web page. Therefore, no personal written communication regarding the examination date and/or competition results shall be provided to applicants.

Annex 1

Competition Notice for the award of 1 two-year research grant for carrying out research activities at the University of Udine on the following subject: “Open innovation manager: studying, designing and implementing an Open Innovation management structure for iNEST” SSD: ING-IND/35 (principal investigator, Cinzia Battistella).

Research fellowship financed with the resources of the research project titled “Interconnected Nord-Est Innovation Ecosystem” (iNEST). Public call No. 3277 of 30/12/2021, PNRR M4C2 Inv. 1.5, CUP G23C22001130006.

Art. 1

A selection procedure is hereby announced for the award of 1 two-year research grant at the University of Udine, as identified in Attachment A which constitutes an integral and substantial part of this call.

The research grant is linked to the research project and is subject and conditioned upon the relative funding. Specifically, the project is placed within the context of the Italian National Recovery and Resilience Plan (i.e., PNRR) – Mission 4: Education and research, Component 2: From research to business, Investment 1.5: Creating and strengthening "innovation ecosystems", building "local R&D leaders", funded by the EU-Next GenerationEU; Project: "Interconnected Nord-Est Innovation Ecosystem" (iNEST), ECS00000043; Thematic area: Digital, Industry, Aerospace. CUP: G23C22001130006.

The fellowship may be renewed, in compliance with Art. 22, Law No. 240 of 30 December 2010 (as in the text in force before the implementation of the Conversion Law of the D.L. 36/2022, L. 79/2022), Law No. 11 of 27 February 2015, and the current regulations of the University of Udine for awarding research grants, issued with the Rector’s Decree No. 182 of 31 March 2021. The renewal is subject to the scientific coordinator’s positive assessment of the researcher’s activities, an adequate scientific rationale, and a corresponding financial covering.

The activities pertaining to this research fellowship will be monitored for compliance with the PNRR’s Do No Significant Harm principle (hereinafter DSNH), that is, they will not cause significant harm to the environment.
This call guarantees equal generational, gender and territorial opportunities.

The research findings resulting from the fellowship, as well as the related data, will be published in compliance with the Open Science and FAIR Data principles.

The research fellowship does not give rise to any right with regards to accessing University posts.

The signing of the contract is subject to the formalization of the agreement between the Hub and Spokes and between Spokes and Spokes’ Affiliates.

Any personal communication to candidates related to this selection will be sent exclusively to the email address indicated when registering for the selection, as mentioned in Art. 5.

**Art. 2**

The research grant described in this competition announcement and the required qualifications to apply for the position are identified in Attachment A. The lack of the admission requirements leads to the automatic exclusion from the competition procedure.

Possession of a PhD or equivalent degree obtained abroad or, only for the interested areas, of a medical specialization accompanied by an adequate scientific production, constitutes a preferential qualification for awarding the research fellowship of this selection, if it has not been provided as a mandatory requirement.

For the only purpose of the admission to the competition, the Examining Board (Art. 7) shall assess the equivalence of the qualification obtained abroad, except for the evaluation of the medical specialization qualification to which Article 38 of the Legislative Decree 165/2001 and subsequent modifications and additions, and EU regulations on the matter, shall be applied.

The Examining Board will proceed to the evaluation of the qualification obtained abroad according to the documentation attached to the application form. The Examining Board may exclude the candidate if the submitted documentation does not provide sufficient information for the assessment. Therefore, applicants must enclose all the documentation in their possession relating to their qualification in order to provide the Examining Board with sufficient information for assessment.

Candidates holding a qualification issued by a European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:

- Supplement Diploma in English issued by the competent University.
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the “diplome” service at [https://cimea.diplo-me.eu/udine/#/auth/login](https://cimea.diplo-me.eu/udine/#/auth/login)

Candidates holding a qualification issued by a non-European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:

- Declaration of the on-site value of the qualification and the certificate relating to the degree with examinations and grades. A certificate in a language other than Italian or English must be accompanied by an official translation into one of these languages (certified by the competent diplomatic-consular authority or certified by a court in Italy).
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the "diplome" service at https://cimea.diplome.eu/udine/#/auth/login

If the Supplement Diploma or the statement/attestation of comparability are not available when signing the contract, the applicant must demonstrate that he/she has requested the documentation and submit it as soon as possible.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of required documents, failure to sign the selection application or submission of the selection application in a manner different from what is provided for in this call for applications will be communicated to applicants exclusively at the email address indicated in the application form.

**Art. 3**

The research grant referred to in this call for applications cannot be awarded:

a. to employees of Universities and the entities referred to in Article 22, section 1, of Italian Law no. 240 of 30 December 2010 (in the text prior to the reform introduced by Law no. 79 of 29 June 2022);

b. to those who have already been awarded research grants pursuant to Italian Law no. 240 of 30 December 2010 (prior to the reform introduced by Law no. 79 of 29 June 2022) for the maximum period provided by law, even if not continuously, excluding the period in which the grant was used in conjunction with the doctorate, up to the legal term of the relative course;

c. to those who have already benefited from research grants and fixed-term researcher contracts provided for, respectively, in Articles 22 and 24 of Italian Law no. 240 of 30 December 2010 (in the text prior to the reform introduced by Law no. 79 of 29 June 2022), for a total of 12 years, even if not consecutive;

d. to anyone who has a degree of kinship or affinity, up to and including the fourth degree, with:
   - the Rector, the Director General or a member of the Board of Directors of the University of Udine;
   - the scientific supervisor or a professor/researcher belonging to the department or organisation hosting the research grant in question.

The research grant provided for in this call for applications cannot be combined:

a) with scholarships of any kind, except for those granted by Italian or foreign institutions to supplement, by means of stays abroad, the fellow's training or research activities;

b) with other research grants;

c) with an employment relationship, even if part-time, without prejudice to the relevant provisions for employees of public administrations.

The grant awarded under this call for applications is also incompatible with simultaneous attendance at university degree courses, either Bachelors, specialistic or Masters, research Doctorates with scholarships and medical specializations, in Italy or abroad.

**Art. 4**

Applicants must enclose with their application, under penalty of exclusion, the following documents:

a) their professional scientific CV, highlighting the candidate's aptitude for carrying out and implementing the research project (Attachment A);
b) their identity card, their passport or any other identification document¹;  
c) (for candidates with a foreign qualification only) certification or self-certification of both the academic qualification required for the admission to the selection, and of the exams (with evaluation) took during the period of study abroad, and of any other document that can be useful to the evaluation of the degree by the Examining Board.

Applicants can attach to the application, publications and any other certification considered useful to demonstrate the qualification based on the research program (Attachment A) and to certify any research activity accomplished at public or private institutes (indicating the starting and ending date and the duration).

The documents and qualifications mentioned above must be submitted in Italian or English. Those that are not as requested will not be evaluated. Documents originally written in a language other than Italian or English must come with a translation in Italian or English, that the candidate will do on its own responsibility. The translation can be an abstract concerning the thesis.

Italian and Community candidates wishing to submit qualifications referring to conditions and facts attested by Public Administrations must proceed exclusively with self-certification.  
Non-EU citizens legally residing in Italy may self-certify only data that can be verified or certified by Italian public bodies. They may also use declarations in lieu when provided for by an international convention between Italy and the declarant's country of origin.  
Non-EU citizens not residing in Italy cannot self-certify.

Only the qualifications possessed by the candidate on the date the application form is submitted and submitted in accordance with the procedures set out in Article 5 will be assessed.

Failure to submit mandatory documents provided for in this article will constitute grounds for exclusion from the selection.

Art. 5
The submission of the applications for the present call starts on June 22, 2023 at 2:00 pm (Italian time) and ends on July 13, 2023 at 2:00 pm (Italian time).

The application to take part in the selection must be completed, under penalty of exclusion, using the appropriate online procedure, available at the link https://pica.cineca.it/  
The procedure involves an applicant registration step, for those who do not already have an account, and then an application completion step.

Once completed, the online application must be signed in the manner described in the online procedure (manual signature with attached identity document or digital signature), under penalty of exclusion from selection. The application does not have to be signed if you access the above-mentioned online procedure using your SPID ID.

The qualifications referred to in Article 4 must be attached to the application in .pdf format. Individual .pdf files may not exceed 30MB.

¹ Please be aware that the residence permit is not an identification document.
The application for participation in the selection is automatically sent to the University of Udine with the definitive closing of the online procedure.

The University Administration:
- is not responsible if it is impossible to read the submitted documentation in electronic format due to damaged files;
- shall not accept or take into consideration qualifications or documents received in paper form or by any means other than what is specified in this article.

Reference to documents or publications already submitted in connection with other competitions is not allowed.

The Administration is not responsible for any missing document or communication because of inaccurate indication of residence and/or address submitted by the candidate during the application. Also, the Administration is not responsible if the candidate has not communicated changes in this information, or has communicated them too late. The Administration is also not responsible for any postal or telegraphic problems not attributable to the Administration itself.

Applicants are advised not to wait until the last few days before the closing date to submit their application. The University accepts no responsibility for any malfunctions due to technical problems and/or overloading of the communication line and/or application systems.

**Art. 6**

The selection procedure is held in accordance with the modality indicated in Attachment A.

The test will aim to assess the general preparation, experience and aptitude for research of the candidate. It will consist in the evaluation of the professional scientific curriculum, of the publications and qualifications presented, and of the interview, where foreseen.

**Art. 7**

The Examining board for the competition is identified in Attachment A of the present competition announcement, of which it is an integral part.

At its first meeting, the Examining board shall appoint its President and Secretary, and establish the criteria and methods for evaluating the qualifications and the interview, where foreseen.

The results of the qualifications assessment must be disclosed to applicants during the interview, where foreseen.

The Examining board can award a maximum of 100 points (one hundred out of one hundred) to the selection.

At the end of the evaluation procedure, the Examining board shall formulate the general merit list based on the overall score of each candidate, and draw up the minutes of the whole competition procedure.

Based on the ranking list, the assignment is awarded to candidates who have obtained a minimum overall score of 70/100 (seventy out of one hundred).
The Examinining board's judgement is final.

The ranking list will be made public exclusively through publication on the University's official website.

Applicants will not be notified of the outcome of the evaluation.

Those who do not declare their acceptance of the research grant and do not present themselves at the research centre within the deadline communicated by the latter, even if not formally, shall lose the right to receive it. Exceptions to this term will only be granted in cases of documented force majeure.

**Art. 8**

The research activity cannot be started before signing the contract defining the terms and conditions of the collaboration.

The activity covered by the research grant must have the following characteristics:

a) it must be carried out as part of the research programme covered by the grant and not be a merely technical support to it;

b) it must have a close connection with the realization of the research program for which the winner of the grant has been awarded the contract;

c) it must be continuous and, in any case, temporally defined, not merely occasional, and in coordination with the overall activity of the University;

d) it must be carried out autonomously, solely within the limits of the programme prepared by the programme supervisor, without predetermined working hours.

The researcher is required to submit a detailed written report on the work carried out and the results achieved, accompanied by the opinion of the scientific supervisor, to the reference organisation at the intervals set out in the contract. The researcher must also submit interim reports and timesheets, if requested by the reference organisation.

Either the fellow or the reference organisation may withdraw from the contract. The reference organisation may terminate the contract not only in the cases referred to in Article 9, sections 2 and 3, of the "Internal rules for awarding research grants pursuant to law 240 of 30 December 2010" of the University of Udine, but also in the event the research project and therefore the financial coverage on which the research grant is based cease to exist.

The signing of the contract is subject to the formalization of the agreement between the Hub and Spokes and between Spokes and Spokes' Affiliates.

**Art. 9**

The following legal dispositions shall apply to the grant referred to in this call for applications:

- for tax matters, the provisions of Article 4 of Italian Law no. 476 of 13 August 1984, as subsequently amended and supplemented;

- for social security matters, the provisions of Article 2(26) et seq. of Italian Law no. 335 of 8 August 1995, as subsequently amended and supplemented;

- for mandatory maternity leave, the provisions of the Italian Ministerial Decree of 12 July 2007;

- with regard to sick leave, the provisions of Article 1(788) of Italian Law no. 296 of 27 December 2006 and subsequent amendments.
During the period of mandatory maternity leave, the allowance paid by INPS according to Art. 5 of the Italian Ministerial Decree of 12 July 2007 is supplemented by the University up to the full amount of the research grant.

The grant will be paid in monthly instalments.

Art. 10

The data collected as part of the procedure referred to in Art. 5 are necessary to properly manage the selection procedure, for any subsequent management of the research grant and for purposes related to managing services provided by the University. The University of Udine is the Data Controller. At any time, the data subject may request access, rectification and, depending on the University's institutional purposes, cancellation and restriction of processing or oppose the processing of their data. The data subject can always lodge a complaint with the Italian Data Protection Authority. The complete disclosure is available on the University of Udine website in the "Privacy" section, accessible from the home page www.uniud.it Direct Link: https://www.uniud.it/it/pagine-speciali/guida/privacy

Art. 11

For all matters not expressly mentioned in this call for applications, refer to the regulations in force on the subject cited in the introduction and to the "Internal rules for awarding research grants pursuant to Italian Law no. 240 of 30 December 2010" of the University of Udine, issued by Rector's Decree no. 182 of 31 March 2021.

Art. 12

The procedure supervisor is Dr Sandra Salvador, Head of the Research Services Area of the University of Udine.

The Responsible office at the University of Udine is “Area Servizi per la Ricerca - Ufficio Formazione per la Ricerca", via Mantica n. 31 - 33100 Udine, Italia.

Testo in italiano:
La seguente posizione di assegno di ricerca si colloca nelle attività di tipo trasversale del progetto iNEST.

Obiettivi iNEST (interconnected Nord-Est Innovation Ecosystem)
iNEST propone un nuovo modello di ecosistema dell'innovazione. Gli Ecosistemi dell'Innovazione sono reti di università, enti pubblici di ricerca, enti di governo locale, altri soggetti pubblici e privati altamente qualificati e riconosciuti a livello internazionale. Agiscono sulle aree di specializzazione tecnologica industriale e di ricerca possedute dal territorio di riferimento, promuovendo e rafforzando la collaborazione tra il sistema della ricerca, il sistema produttivo e le istituzioni territoriali.
Gli Ecosistemi dell'Innovazione valorizzano i risultati della ricerca, facilitano il trasferimento tecnologico e accelerano la trasformazione digitale dei processi produttivi delle imprese in un'ottica di sostenibilità economica e ambientale e di impatto sociale sul territorio.

Obiettivo dell'Attività Trasversale [CC1]: “Sostenere la generazione e lo sviluppo di start-up e spin-off di ricerca”
Nella progettazione di un ecosistema dell'innovazione è strategico favorire lo sviluppo di un'azione trasversale a tutti gli SPOKE, funzionale alla generazione e allo sviluppo di start-up e spin-off di ricerca. Questa azione è caratterizzata da:
una gestione decentrata ma coordinata della fase di Pre-Accelerazione, come percorso affidato ai singoli SPOKE per generare e selezionare idee innovative da trasformare in start-up e spin-off di ricerca. La gestione decentrata permette di aiutare i futuri neo-imprenditori (studenti, dottorandi, ricercatori, ecc.), mentre il coordinamento permette di raggiungere l'economia di replica, progettando metodologie e piattaforme tecnologiche applicabili a tutti gli SPOKE, partendo dai casi migliori di ciascuna Università;

una gestione centralizzata delle fasi di Accelerazione & Fundraising, come percorso di azione per la definizione del modello di business delle start-up e spin-off di ricerca e la gestione dei round di investimento per l'entrata nel mercato. La gestione centralizzata delle fasi, durante le quali le nuove imprese si confrontano con il mercato reale (clienti e investitori), consente di raggiungere economie di scala, utilizzando metodologie e piattaforme tecnologiche già sviluppate e collaudate.

Obiettivi dell'assegno di ricerca
L'assegnista lavorerà nell'ambito di tutti i task previsti per la Cross Cutting CC1 di iNEST (CC1.1 Planning and validation, CC1.2 Pre-Acceleration, CC1.3 Acceleration e CC1.4 Fundraising), concentrandosi in particolare sul task CC1.2 "Fase di pre-accelerazione" e sul sub-task CC1.2.4 "Attività di innovazione aperta". L'obiettivo del sub-task CC1.2.4 "Attività di innovazione aperta" è stabilire relazioni con aziende e altri partner al fine di facilitare lo sviluppo di nuovi progetti, spin-off e attività di co-innovazione tra università, startup e aziende.

Attività dell'assegno di ricerca
L'assegnista di ricerca dovrà:
- studiare la letteratura, ovvero studiare le attuali strategie, pratiche, meccanismi, metodologie e strumenti già descritti in letteratura, per mappare le conoscenze;
- studiare lo stato dell'arte, ovvero studiare le attuali strategie, pratiche, meccanismi, metodologie e strumenti già presenti in altri ecosistemi dell'innovazione e in altre collaborazioni università-industria di buone pratiche al fine di mappare la pratica;
- progettare una struttura di gestione dell'Open Innovation per iNEST, ovvero selezionare e definire le strategie, le pratiche, i meccanismi, le metodologie e gli strumenti adatti per iNEST;
- implementare una struttura di gestione dell'Open Innovation per iNEST, ovvero realizzare, in collaborazione con gli uffici interni e in collaborazione con gli altri partner di iNEST, le strategie, le pratiche, i meccanismi, le metodologie e gli strumenti per iNEST.

Risultati dell'assegno di ricerca
L'assegnista produrrà i seguenti deliverable:
- relazione sulla letteratura e sullo stato dell'arte;
- relazione sulla progettazione della struttura di gestione dell'Open Innovation per iNEST;
- relazione sul livello di implementazione della struttura di gestione dell'Open Innovation per iNEST.

Text in English:
This research fellow position is collocated in the cross-cutting activities of the iNEST project.

iNEST (interconnected Nord-Est Innovation Ecosystem) objectives
iNEST is a new model of innovation ecosystem. Innovation Ecosystems are networks of universities, public research bodies, local government bodies, other highly qualified and internationally recognized public and private entities. They act on areas of technological specialization possessed with the industrial and research vocations of the reference territory, promoting and strengthening the collaboration among the research system, the production system and the territorial institutions.
Innovation Ecosystems enhance research results, facilitate technology transfer and accelerate the digital transformation of companies’ production processes with a view to economic and environmental sustainability and social impact on the territory.

**Cross-cutting Activity [CC1] “Support the generation and the development of research start-ups and spin-offs” objectives**

Within the design of an innovation ecosystem, it is strategic to favour the development of a transversal action to all SPOKEs, functional for the generation and the development of research start-ups and spin-offs. This action is characterised by:

- a decentralized, yet coordinated, management of the Pre-Acceleration phase, as a course of action entrusted to the individual SPOKEs to generate and select innovative ideas to be turned into research start-ups and spin-offs. Decentralized management allows to help the neo-entrepreneurs-to-be (students, PhDs, researchers, etc.), while the coordination allows reaching economics of replication, designing methodologies and technological platforms applicable to all SPOKEs, starting from the best cases of each university;
- a centralized management of the Acceleration & Fundraising phases, as a course of action for the definition of the business model of the research start-ups and spin-offs and the management of the investment rounds, to get those to enter the market and consequently scale up. Centralized management of the phases, along which the new enterprises face the real market (clients and investors), allows reaching economics of scale, using methodologies and technological platforms already developed and tested.

**Research fellowship objectives**

The research fellow will work within all the tasks of the Cross Cutting Activity CC1 of iNEST (CC1.1 Planning and validation, CC1.2 Pre-Acceleration, CC1.3 Acceleration and CC1.4 Fundraising), focusing in particular on the Task CC1.2 "Pre-acceleration phase" and the Sub-Task CC1.2.4 "Open innovation activity".

The objective of the sub-task CC1.2.4 “Open innovation activities” is to establish relationships with companies and other partners in order to facilitate the development of new projects, spinoffs and co-innovation activities among universities, startups and companies.

**Research fellowship activities**

The research fellow will:

- study the literature, i.e., study the current strategies, practices, mechanisms, methodologies and tools already described in the literature, to map the knowledge in the field;
- study the state of the art, i.e., study the current strategies, practices, mechanisms, methodologies and tools already present in other innovation ecosystems and in other best practice university-industry collaborations in order to map the practice of the field;
- design an Open Innovation management structure for iNEST, i.e., select and define the strategies, practices, mechanisms, methodologies and tools adapt for iNEST;
- implement an Open Innovation management structure for iNEST, i.e., realise, in collaboration with the internal offices and in collaboration with the other partners of iNEST, the strategies, practices, mechanisms, methodologies and tools for iNEST.

**Research fellowship results**

The research fellow will produce the following deliverables:

- report on literature and state of the art;
- report on the design of the Open Innovation management structure for iNEST;
- report on the level of implementation of the Open Innovation management structure for iNEST.
