Sergio Sarti e la problematicità come metodo in Sergio Sarti's political disciplina e la ricostruzione della proposta metodologica di Sarti; con particolare riferimento all'elaborazione di una concezione problematica della verità filosofica al centro della riflessione politico-giuridica.

Testo in italiano:
Il lavoro dell'assegnista di ricerca dovrà svolgersi in vista dell'obiettivo generale del recupero e della valorizzazione del pensiero di Sergio Sarti, con particolare riferimento alla proposta metodologica elaborata dal filosofo friulano e legata all'applicazione della problematicità filosofica alle grandi questioni della riflessione politico-giuridica. Conseguentemente, gli obiettivi del progetto di ricerca saranno:

1) procedere alla ricostruzione della proposta metodologica di Sarti;
2) delineare la genesi, ponendola in rapporto tanto con il dibattito filosofico nazionale quanto con il panorama storico-culturale della regione Friuli Venezia Giulia;
3) ricercare se, all'interno degli scritti di Sarti, sia possibile riscontrare alcuni esempi di applicazione del metodo della problematicità alla risoluzione di concreti problemi politico-giuridici.

In riferimento al primo e al secondo obiettivo, la ricostruzione della proposta metodologica sartiana dovrà essere messa in luce indagando i due interessi principali della speculazione del filosofo friulano: da un lato la metafisica, con particolare riferimento all'elaborazione di una concezione problematica della verità; dall'altra la filosofia politica, come dimostrano le numerose pagine dedicate ai temi della rivoluzione, dell'utopismo, del pensiero marxista e alla comprensione della società liberale. A questo scopo, occorrerebbe inizialmente chiarire la definizione di verità secondo il filosofo friulano, cogliendone i riferimenti – da un lato il rapporto con il paradigma della metafisica classica di Marino Gentile e lo spiritualismo cristiano di Michele Federico Sciacca e dall'altro la situazione politica e il dibattito culturale friulano, con una particolare attenzione per il vivace panorama delle riviste culturali friulane – e i tratti di originalità. Secondariamente, occorrerà ricercare se e come la comprensione della società liberale e degli snodi storici e filosofici che a essa conducono venga elaborata da Sarti a partire dalla sua idea di verità. In tale ottica saranno quindi di primaria importanza un'accurata analisi e un ponderato bilanciamento degli scritti sartiani, sia di carattere più spiccatamente locale (come le brevi pubblicazioni a carattere monografico edite per la Scuola cattolica di cultura di Udine e i
contributi apparsi nelle pagine de «La Panarie»), sia di interesse nazionale (come, ad esempio, la raccolta di saggi Studi di logica e metafisica e il volume Mito e rivoluzione). Inoltre, una parte costante del lavoro di ricerca dovrà essere deputata al rinvenimento di possibili ulteriori fonti per la ricostruzione del pensiero sartiano, indagando oltre alle pagine delle riviste frequentate dal filosofo friulano, come ad esempio quelle del «Giornale di metafisica», anche se sia possibile rinvenire documenti dell’attività di Sarti all’interno del circolo filosofico udinese Paolo Veneto.

In riferimento al terzo obiettivo, la ricerca andrà condotta non limitandosi a considerare esclusivamente la produzione saggistica e monografica conosciuta di Sarti, ma bensì vagliando anche le opere inedite - su tutti il manoscritto intitolato Schegge. Frammento di una metafisica dell’essere - e gli spunti rilevanti che possono essere dedotti dalle opere sartiane di carattere storico e letterario come, ad esempio, il poema Missione in Northumbria e il romanzo inedito Fino all’alba.

Inoltre, entro la fine del periodo di collaborazione, ci si aspetta che la ricerca abbia prodotto almeno i seguenti risultati scientifici:

1) la realizzazione di almeno due saggi scientifici – uno a carattere storico-filosofico e uno a carattere filosofico-giuridico – e la loro presentazione per la pubblicazione all’interno di riviste scientifiche di settore a carattere sia nazionale che internazionale;
2) l’organizzazione di un convegno di studi, con il coinvolgimento di ospiti di rilevanza nazionale, finalizzato alla valorizzazione dell’attualità della proposta metodologica di Sergio Sarti.

Text in English:

The research fellow's work will have to take place in view of the general objective of recovering and enhancing Sergio Sarti's thought, with particular reference to the methodological proposal elaborated by the Friulian philosopher and linked to the application of a problematic philosophical approach to the great questions of political and legal reflection. Consequently, the objectives of the research project will be:

1) proceed with the reconstruction of Sarti’s methodological proposal;
2) outlining its genesis, placing it in relation both with the national philosophical debate and with the historical-cultural panorama of the Friuli Venezia Giulia region;
3) investigate whether, within Sarti’s writings, it is possible to find some examples of application of the problematic method to the resolution of concrete political-juridical problems.

With reference to the first and second objectives, the reconstruction of Sarti’s methodological proposal will have to be highlighted by investigating the two main interests of the Friulian philosopher’s speculation: on the one hand, metaphysics, with particular reference to the elaboration of a problematic conception of truth; on the other, political philosophy, as demonstrated by the numerous pages dedicated to the themes of revolution, utopianism, Marxist thought and the understanding of liberal society. To this end, it would initially be necessary to clarify the definition of truth according to the Friulian philosopher, taking its references - on the one hand the relationship with the paradigm of classical metaphysics of Marino Gentile and the Christian spiritualism of Michele Federico Sciaccia and on the other the political and the Friulian cultural debate, with particular attention to the lively panorama of Friulian cultural magazines - and the traits of originality. Secondly, it will be necessary to research whether and how the understanding of liberal society and the historical and philosophical turning points that lead to it is elaborated by Sarti starting from his idea of truth. From this point of view, an accurate analysis and a weighted balance of Sarti’s writings will therefore be of primary importance, both of a more distinctly local nature (such as the short monographic publications published for the Scuola Cattolica di cultura of Udine and the contributions that appeared in the pages of «La Panarie»), and of national interest (such as, for example, the collection of essays Studi di logica e metafisica and the volume Mito e rivoluzione). Furthermore, a constant part of the research work will have to be dedicated to the discovery of possible further sources for the reconstruction of Sarti’s thought, investigating not only the pages of the magazines frequented by the Friulian philosopher, such as...
those of the «Giornale di metafisica», even if it is it is possible to find documents of Sarti's activity within the Paolo Veneto philosophical circle of Udine.

With reference to the third objective, the research will be conducted not limiting itself to considering exclusively Sarti’s known essay and monographic production, but also examining the unpublished works - above all the manuscript entitled Schegge. Frammenti di una metafisica dell'essere - and the relevant ideas that can be deduced from Sarti’s historical and literary works, such as, for example, the poem Missione in Northumbria and the unpublished novel Fino all'alba.

Furthermore, by the end of the collaboration period, the research is expected to have produced at least the following scientific results:

1) the writing of at least two scientific essays – one in the history of philosophy area and one in the philosophy of law area – and their submission for publication in national and international scientific journals of sector;

2) the organization of a study conference, with the involvement of guests of national importance, aimed at enhancing the topicality of Sergio Sarti’s methodological proposal.

Ricadute delle attività progettuali sul territorio della Regione Friuli Venezia Giulia / Impact of the project activities on the territory of Friuli Venezia Giulia:

Testo in italiano:
Il progetto di ricerca si propone, attraverso il focus tematico sulla figura di Sergio Sarti, di riportare alla luce e di valorizzare la specificità del dibattito culturale friulano, con particolare riferimento agli anni Sessanta e Settanta, mettendone in luce la rilevanza e l’originalità nei confronti del contesto nazionale. Tale operazione di recupero di una tradizione filosofica “locale”, da operarsi attraverso la sinergia tra l’Ateneo e la Società Filologica Friulana, è inoltre finalizzata a mettere in luce il possibile ruolo vitale del pensiero sartiano, ricercando nella speculazione filosofica regionale una risorsa per il dibattito contemporaneo.

Nello specifico, si prevede di realizzare in stretta collaborazione con l’ente partner:
- la pubblicazione di uno o più brevi saggi divulgativi su Sarti da ospitare nelle pagine dell’organo della Società Filologica Friulana;
- la realizzazione di un ciclo di eventi a carattere seminariale aperti alla cittadinanza in cui tematizzare il rapporto tra alcuni aspetti del pensiero sartiano e la storia culturale friulana. Tali eventi si dovrebbero svolgere con il coinvolgimento di esperti identificati dalla Società Filologica Friulana in dialogo o in alternanza con l’assegnista.
