Decree of the Rector n. 1111 of 31/10/2023
Competition for awarding 1 research grant at the University of Udine

DISCLAIMER:
The official and legally binding call for applications is in Italian only. This document cannot be used for legal purposes and is only meant to provide information in English on the call for applications (Decree of the Rector n. 1111 of 31/10/2023). Please refer to the official call published on: https://www.uniud.it/it/albo-ufficiale

Any change and integration will be made available on the above mentioned web page. Therefore, no personal written communication regarding the examination date and/or competition results shall be provided to applicants.

Annex 1

Competition announcement for the assignment of 1 research grant at the University of Udine, entitled “Contact induced language change in minority languages in Friuli: data collection and analysis proposals” SSD: L-LIN/01 (principal investigator, Francesco Costantini)

Research grant funded by the resources of the project PRIN 2022 - Prot. n. 20224RFY93

Art. 1
A selection procedure is hereby launched for the award of 1 research grant at the University of Udine, as identified in Attachment A which constitutes an integral part of the present announcement. The research grant is linked to the research project and is subject and conditioned upon the relative funding. The fellowship may be renewed, in compliance with Art. 22, Law No. 240 of 30 December 2010 (as in the text in force before the implementation of the Conversion Law of the D.L. 36/2022, L. 79/2022), Law No. 11 of 27 February 2015, and the current regulations of the University of Udine for awarding research grants, issued with the Rector’s Decree No. 182 of 31 March 2021. The renewal is subject to the scientific coordinator’s positive assessment of the researcher’s activities, an adequate scientific rationale, and a corresponding financial covering.

The research fellowship does not give rise to any right with regards to accessing University posts.

Any personal communication to candidates related to this selection will be sent exclusively to the email address indicated when registering for the selection, as mentioned in Art. 5.

Art. 2
The research grant described in this competition announcement and the required qualifications to apply for the position are identified in Attachment A. The lack of the admission requirements leads to the automatic exclusion from the competition procedure.

Possession of a PhD or equivalent degree obtained abroad or, only for the interested areas, of a medical specialization accompanied by an adequate scientific production, constitutes a preferential qualification for awarding the research fellowship of this selection, if it has not been provided as a mandatory requirement.

RESEARCH SERVICES AREA
Research Training Office
Department Head: Sandra Salvador
Procedure Supervisor: Sandra Salvador
Procedure Compiler: Francesca Mion
For the only purpose of the admission to the competition, the Examining Board (Art. 7) shall assess the equivalence of the qualification obtained abroad, except for the evaluation of the medical specialization qualification to which Article 38 of the Legislative Decree 165/2001 and subsequent modifications and additions, and EU regulations on the matter, shall be applied.

The Examining Board will proceed to the evaluation of the qualification obtained abroad according to the documentation attached to the application form. The Examining Board may exclude the candidate if the submitted documentation does not provide sufficient information for the assessment. Therefore, applicants must enclose all the documentation in their possession relating to their qualification in order to provide the Examining Board with sufficient information for assessment.

Candidates holding a qualification issued by a European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:

- Supplement Diploma in English issued by the competent University.
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the “diplome” service at https://cimea.diplome.eu/udine/#/auth/login.

Candidates holding a qualification issued by a non-European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:

- Declaration of the on-site value of the qualification and the certificate relating to the degree with examinations and grades. A certificate in a language other than Italian or English must be accompanied by an official translation into one of these languages (certified by the competent diplomatic-consular authority or certified by a court in Italy).
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the “diplome” service at https://cimea.diplome.eu/udine/#/auth/login.

If the Supplement Diploma or the statement/attestation of comparability are not available when signing the contract, the applicant must demonstrate that he/she has requested the documentation and submit it as soon as possible.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of required documents, failure to sign the selection application or submission of the selection application in a manner different from what is provided for in this call for applications will be communicated to applicants exclusively at the email address indicated in the application form.

Art. 3

The research grant referred to in this call for applications cannot be awarded:

a. to employees of Universities and the entities referred to in Article 22, section 1, of Italian Law no. 240 of 30 December 2010 (in the text prior to the reform introduced by Law no. 79 of 29 June 2022);

b. to those who have already been awarded research grants pursuant to Italian Law no. 240 of 30 December 2010 (prior to the reform introduced by Law no. 79 of 29 June 2022) for the maximum period provided by law, even if not continuously, excluding the period in which the grant was used in conjunction with the doctorate, up to the legal term of the relative course;

c. to those who have already benefited from research grants and fixed-term researcher contracts provided for, respectively, in Articles 22 and 24 of Italian Law no. 240 of 30 December 2010 (in the
text prior to the reform introduced by Law no. 79 of 29 June 2022), for a total of 12 years, even if not consecutive;
d. to anyone who has a degree of kinship or affinity, up to and including the fourth degree, with:
   - the Rector, the Director General or a member of the Board of Directors of the University of Udine;
   - the scientific supervisor or a professor/researcher belonging to the department or organisation hosting the research grant in question.

The research grant provided for in this call for applications cannot be combined:

a) with scholarships of any kind, except for those granted by Italian or foreign institutions to supplement, by means of stays abroad, the fellow's training or research activities;
b) with other research grants;
c) with an employment relationship, even if part-time, without prejudice to the relevant provisions for employees of public administrations.

The grant awarded under this call for applications is also incompatible with simultaneous attendance at university degree courses, either Bachelor's degree or Master’s degree courses, research Doctorates with scholarships and medical specializations, in Italy or abroad.

Art. 4

Applicants must enclose with their application, under penalty of exclusion, the following documents:

a) their professional scientific CV, highlighting the candidate's aptitude for carrying out and implementing the research project (Attachment A);
b) their identity card, their passport or any other identification document¹;
c) (for candidates with a foreign qualification only) certification or self-certification of both the academic qualification required for the admission to the selection, and of the exams (with evaluation) taken during the period of study abroad, and of any other document that can be useful to the evaluation of the degree by the Examining Board.

Applicants can attach to the application, publications and any other certification considered useful to demonstrate the qualification based on the research program (Attachment A) and to certify any research activity accomplished at public or private institutes (indicating the starting and ending date and the duration).

The documents and qualifications mentioned above must be submitted in Italian or English. Those that are not as requested will not be evaluated. Documents originally written in a language other than Italian or English must come with a translation in Italian or English, that the candidate will do on its own responsibility. The translation can be an abstract concerning the thesis.

Italian and Community candidates wishing to submit qualifications referring to conditions and facts attested by Public Administrations must proceed exclusively with self-certification.

Non-EU citizens legally residing in Italy may self-certify only data that can be verified or certified by Italian public bodies. They may also use declarations in lieu when provided for by an international convention between Italy and the declarant's country of origin.

Non-EU citizens not residing in Italy cannot self-certify.

Only the qualifications possessed by the candidate on the date the application form is submitted and submitted in accordance with the procedures set out in Article 5 will be assessed.

¹ Please be aware that the residence permit is not an identification document.
Failure to submit mandatory documents provided for in this article will constitute grounds for exclusion from the selection.

Art. 5
The submission of the applications for the present call starts on November 7, 2023 at 2:00 pm (Italian time) and ends on November 28, 2023 at 2:00 pm (Italian time).

The application to take part in the selection must be completed, under penalty of exclusion, using the appropriate online procedure, available at the link https://pica.cineca.it/

The procedure involves an applicant registration step, for those who do not already have an account, and then an application completion step.

Once completed, the online application must be signed in the manner described in the online procedure (manual signature with attached identity document or digital signature), under penalty of exclusion from selection. The application does not have to be signed if you access the above-mentioned online procedure using your SPID ID.

The qualifications referred to in Article 4 must be attached to the application in .pdf format. Individual .pdf files may not exceed 30MB.

The application for participation in the selection is automatically sent to the University of Udine with the definitive closing of the online procedure.

The University Administration:
- is not responsible if it is impossible to read the submitted documentation in electronic format due to damaged files;
- shall not accept or take into consideration qualifications or documents received in paper form or by any means other than what is specified in this article.

Reference to documents or publications already submitted in connection with other competitions is not allowed.

The Administration is not responsible for any missing document or communication because of inaccurate indication of residence and/or address submitted by the candidate during the application. Also, the Administration is not responsible if the candidate has not communicated changes in this information, or has communicated them too late. The Administration is also not responsible for any postal or telegraphic problems not attributable to the Administration itself.

Applicants are advised not to wait until the last few days before the closing date to submit their application. The University accepts no responsibility for any malfunctions due to technical problems and/or overloading of the communication line and/or application systems.

Art. 6
The selection procedure is held in accordance with the modality indicated in Attachment A.

The test will aim to assess the general preparation, experience and aptitude for research of the candidate. It will consist in the evaluation of the professional scientific curriculum, of the publications and qualifications presented, and of the interview, where foreseen.
Art. 7

The Examining board for the competition is identified in Attachment A of the present competition announcement, of which it is an integral part.

At its first meeting, the Examining board shall appoint its President and Secretary, and establish the criteria and methods for evaluating the qualifications and the interview, where foreseen.

The results of the qualifications assessment must be disclosed to applicants during the interview, where foreseen.

The Examining board can award a maximum of 100 points (one hundred out of one hundred) to the selection.

At the end of the evaluation procedure, the Examining board shall formulate the general merit list based on the overall score of each candidate, and draw up the minutes of the whole competition procedure.

Based on the ranking list, the assignment is awarded to candidates who have obtained a minimum overall score of 70/100 (seventy out of one hundred).

The Examining board's judgement is final.

The ranking list will be made public exclusively through publication on the University's official website.

Applicants will not be notified of the outcome of the evaluation.

Those who do not declare their acceptance of the research grant and do not present themselves at the research centre within the deadline communicated by the latter, even if not formally, shall lose the right to receive it. Exceptions to this term will only be granted in cases of documented force majeure.

Art. 8

The research activity cannot be started before signing the contract defining the terms and conditions of the collaboration.

The activity covered by the research grant must have the following characteristics:

a) it must be carried out as part of the research programme covered by the grant and not be a merely technical support to it;

b) it must have a close connection with the realization of the research program for which the winner of the grant has been awarded the contract;

c) it must be continuous and, in any case, temporally defined, not merely occasional, and in coordination with the overall activity of the University;

d) it must be carried out autonomously, solely within the limits of the programme prepared by the programme supervisor, without predetermined working hours.

The researcher is required to submit a detailed written report on the work carried out and the results achieved, accompanied by the opinion of the scientific supervisor, to the reference organisation at the intervals set out in the contract. The researcher must also submit interim reports and timesheets, if requested by the reference organisation.

Either the fellow or the reference organisation may withdraw from the contract.
The reference organisation may terminate the contract not only in the cases referred to in Article 9, sections 2 and 3, of the "Internal rules for awarding research grants pursuant to law 240 of 30 December 2010" of the University of Udine, but also in the event the research project and therefore the financial coverage on which the research grant is based cease to exist.

Art. 9
The following legal dispositions shall apply to the grant referred to in this call for applications:
- for tax matters, the provisions of Article 4 of Italian Law no. 476 of 13 August 1984, as subsequently amended and supplemented;
- for social security matters, the provisions of Article 2(26) et seq. of Italian Law no. 335 of 8 August 1995, as subsequently amended and supplemented;
- for mandatory maternity leave, the provisions of the Italian Ministerial Decree of 12 July 2007;
- with regard to sick leave, the provisions of Article 1(788) of Italian Law no. 296 of 27 December 2006 and subsequent amendments.

During the period of mandatory maternity leave, the allowance paid by INPS according to Art. 5 of the Italian Ministerial Decree of 12 July 2007 is supplemented by the University up to the full amount of the research grant.

The grant will be paid in monthly instalments.

Art. 10
The data collected as part of the procedure referred to in Art. 5 are necessary to properly manage the selection procedure, for any subsequent management of the research grant and for purposes related to managing services provided by the University. The University of Udine is the Data Controller. At any time, the data subject may request access, rectification and, depending on the University's institutional purposes, cancellation and restriction of processing or oppose the processing of their data. The data subject can always lodge a complaint with the Italian Data Protection Authority. The complete disclosure is available on the University of Udine website in the "Privacy" section, accessible from the home page www.uniud.it Direct Link: https://www.uniud.it/it/pagine-speciali/guida/privacy

Art. 11
For all matters not expressly mentioned in this call for applications, refer to the regulations in force on the subject cited in the introduction and to the "Internal rules for awarding research grants pursuant to Italian Law no. 240 of 30 December 2010" of the University of Udine, issued by Rector's Decree no. 182 of 31 March 2021.

Art. 12
The procedure supervisor is Dr Sandra Salvador, Head of the Research Services Area of the University of Udine.

The Responsible office at the University of Udine is "Area Servizi per la Ricerca - Ufficio Formazione per la Ricerca", via Mantica n. 31 - 33100 Udine, Italia.

To request information about the call for applications, please complete the following form available on the University of Udine website:
https://helpdesk.uniud.it/SubmitSR.jsp?type=req&accountId=universityofudine&populateSR_id=42105
Responsabile scientifico della ricerca / Principal investigator:

Nome e cognome / Name and surname: Francesco Costantini
Qualifica / Position: Professore Associato / Associate Professor
Dipartimento / Department: Studi umanistici e del patrimonio culturale (DIUM) / Humanities and cultural heritage
Area MUR / Research field: 10 – Scienze dell’antichità, filologico-letterarie e storico-artistiche

Contact induced language change in minority languages in Friuli: data collection and analysis proposals.

Obiettivi previsti e risultati attesi del programma di ricerca in cui si colloca l’attività dell’assegnista di ricerca / Foreseen objectives and results of the research programme performed by the research fellow “assegnista di ricerca”:
I bandi sono consultabili dal sito dell’Ateneo, del MUR e di Euraxess / The calls are available on the University, MUR and Euraxess websites

Testo in italiano:

Sebbene in letteratura siano stati discusse argomenti a favore dell’una e dell’altra teoria sulla natura della CILC, la questione quale delle due sia in grado di catturare in modo più naturale i dati è ancora aperta e dovrebbe essere affrontata sia empiricamente (quali prove abbiamo per decidere la questione?) e teoricamente (se il CILC non è vincolato, perché non lo è? Se è vincolato, perché lo è?).
I processi indotti dal contatto nelle lingue minoritarie nello spazio linguistico italiano potrebbero contribuire in modo significativo a questa discussione: a causa del loro status all'interno della comunità nazionale e regionale, le lingue minoritarie sono codici "bassi" in "contatto intimo" (Bloomfield 1933) con un codice "alto" prestigioso, l'italiano (o, in passato, un dialetto italo-romanzo o una lingua romanza); il trasferimento linguistico è dunque potenzialmente pervasivo a qualsiasi livello, dalla fonetica e fonologia, alla morfologia, alla sintassi e al lessico. Inoltre, le lingue minoritarie nello spazio linguistico italiano differiscono per quanto riguarda la loro somiglianza strutturale con il codice alto, l'italiano, in quanto comprendono sia lingue romanzne (francese, franco-provenzale, friulano, sardo, ecc.) che non romanze – germaniche, slave, varietà greche, albanese, ecc.

Il progetto mira a rispondere alle domande di cui sopra assumendo come banco di prova le lingue minoritarie friulane e studiando la CILC in queste varietà, vale a dire friulano, tedesco sauriano (un dialetto bavarese meridionale parlato a Sauris/Zahre), Tedesco di Timau (dialetto carinziano parlato a Timau/Tischlbong), il resiano (dialetto sloveno della Val Resia), le varietà slovene della Val Torre e della Val Natisone.

Le varietà linguistiche tedesche e slovene sono da secoli in contatto con le varietà romanze parlate nella stessa area (vedi Denison 1980 per il tedesco di Sauris, Runič 2017 per il resiano) e insieme al friulano sono oggi in contatto intimo con italiano, poiché tutti i parlanti di queste lingue parlano anche italiano.

Date queste premesse, il progetto prevede quattro obiettivi principali: 1) fornire nuova documentazione, controllata, relativa alle lingue minoritarie indagate come sono parlate oggi e valutare la vitalità strutturale; 2) valutare la vitalità delle lingue minoritarie dal punto di vista sociolinguistico; 3) fornire una ricognizione dei fenomeni rilevanti riguardanti il CILC che emergono dai dati raccolti; 4) fornire elementi di analisi comparativa dei risultati.

Il progetto prevede le seguenti attività.

Le prime attività (mesi 1-2) includeranno lavoro sul campo per valutare la vitalità della lingua. Saranno progettati questionari per raccogliere informazioni sul repertorio linguistico dei parlanti, il livello di competenza linguistica, la frequenza d'uso della lingua minoritaria, il contesto d'uso in base all'interlocutore e il contesto o la situazione sociale, la motivazione per parlare una lingua minoritaria e l'atteggiamento verso la lingua minoritaria. L'indagine sarà effettuata tramite interviste di persona poiché questa metodologia garantisce un migliore controllo sulla raccolta dei dati.

La seconda fase del progetto (mesi 3-8) includerà la raccolta dei dati e la documentazione linguistica. Le attività in questa fase del progetto includeranno la ricerca in archivi privati, registrazioni audio o video di discorsi spontanei in specifici eventi comunicativi (narrazioni, conversazioni, ecc.), elicitazione di narrazioni e altri metodi di elicitazione (ad esempio, attività di mappatura), attività di traduzione. Queste attività coinvolgeranno informatori nelle comunità minoritarie e, ove possibile, associazioni locali che promuovono le lingue minoritarie.

La terza fase (mesi 9-10) prevede attività di analisi della documentazione risultante dalla seconda fase, che sarà resa disponibile al pubblico; verranno inoltre avviate indagini sui fenomeni indotti dal contatto emersi dai nuovi dati e la predisposizione di un database su tali fenomeni. Sulla base delle precedenti esperienze di database tipologico (WOLD, AfBO) il database includerà i fenomeni indotti dal contatto rilevati nelle lingue indagate organizzati secondo il dominio grammaticale – fonologia, morfologia nominale, morfologia verbale, parole funzionali, struttura della frase, struttura della clausola – e consentirà un confronto diretto tra le lingue.

Infine (mesi 11-12), sulla base del database verranno svolte ulteriori ricerche in una prospettiva comparativa al fine di definire fenomeni comuni in diversi linguaggi e generalizzazioni legate al CILC. Il metodo comparativo è essenziale nello studio del contatto linguistico così come in molti altri ambiti di ricerca sul linguaggio. È stato ampiamente utilizzato negli ultimi anni per stabilire tendenze generali e generalizzazioni tipologiche nello studio del contatto tra le lingue e costituirà un pilastro
metodologico all'interno del progetto. In tale fase saranno avviate anche attività di disseminazione dei risultati di ricerca.

Text in English:

One of the main goals in recent research on contact-induced linguistic change (CILC) has been trying to determine whether this kind of change is constrained and how. Thomason, Kaufman (1988: 14) put forward the strong claim whereby “As far as the strictly linguistic possibilities go, any linguistic feature can be transferred from any language to any other language; and implicational universals that depend solely on linguistic properties are similarly invalid”. This claim has been reiterated a number of times and has been labelled as the “anything-goes hypothesis” (Matras 1998: 282). The opposite view, whereby CILC is constrained in a way or the other, has also been claimed in a number of studies. Moravcsik (1978) and again Fields (2002) claim that the more two languages have structural similarities, the more linguistic transfer has chances to happen (Field’s “Principle of system compatibility”) and, on the opposite, the more two languages are typologically distant, the more they are immune to CILC (Field’s “Principle of system incompatibility”). Moreover, Heine, Kuteva (2005, 2008) show that at least in one domain of contact-induced linguistic change, namely grammatical change, constraints do seem in fact to hold, as grammatical change induced by contact appear to comply with Heine, Kuteva’s (2002) grammaticalization parameters. Thus, keeping apart phonetic aspects of grammaticalization, in contact-induced grammatical change desemanticization, decategorization, and extension of morpheme appear to hold, as well as unidirectionality.

Although arguments in favor to both theories on the nature of CILC have been discussed in the literature, the question which of the two is able to capture more naturally the data is still open and should be addressed both empirically (What evidence do we have in order to decide the question?) and theoretically (If CILC is unconstrained, why is it so? If it is constrained, why is it so?).

Contact-induced processes in the minority languages in the Italian linguistic space could contribute significantly to this discussion: due to their status within the national and regional community, they are ‘low’ codes in intimate contact with a prestigious ‘high’ code, Italian (or, in the past, an Italo-Romance dialect or a Romance language), so that linguistic transfer is possibly pervasive on any level, encompassing sounds, phonological rules, morphological inventory and morphological rules, syntactic structure and, of course, vocabulary. Moreover, minority languages in the Italian linguistic space differ as far as their structure similarity to the high code, Italian, is concerned, as they include both Romance languages (French, Franco-Provençal, Friulian, Sardinian, etc.) and non-Romance languages – Germanic, Slavic, Greek, Albanian, etc. Thus, they represent a valuable testing ground to assess hypotheses on CILC.

The project aims to address the above questions by hiring the minority languages in Friuli as testbed and investigating CILC in these varieties, namely Friulian, Sauris German (a Southern Bavarian dialect spoken in Sauris/Zahre); Timau German (a Carinthian dialect spoken in Timau/Tischiborg), Resian (the Slovenian dialect of Val Resia), Val Torre and Val Natisone Slovenian varieties.

The German and Slovenian varieties languages have been in contact with the Romance varieties spoken in the same area for centuries (see Denison 1980 for Sauris German, Runić 2017 for Resian) and together with Friulian are nowadays in ‘intimate contact’ (Bloomfield 1933) with Italian, as virtually all speaker of these languages are also speakers of Italian.

Given these premises, the project includes four main goals: 1) providing new documentation related to the investigated minority languages as they are spoken at the present day and assess their structural vitality; 2) assessing the vitality of the minority languages from a sociolinguistic; 3) providing a survey of relevant phenomena concerning CILC as emerging from the newly collected data; 4) providing a comparative analysis of the results.

To pursue these objectives the project will be structured as follows.
The first activities (months 1-2) will include fieldwork in order to assess language vitality. Questionnaires will be designed to elicit information about a speaker’s linguistic repertoire, the level of linguistic competence, the frequency of use of the minority language, the context of use as depending on interlocutor and social setting or situation, the motivation for speaking a minority language and the attitude towards the minority language. The survey will be carried out through in-person interviews as this methodology guarantees a better control on the data collection.

The second step in the project (months 3-8) will include data collection and language documentation. Activities in this phase of the project will include research in private archives, audio or video recordings (about 60 hours for each minority language) of spontaneous speech in specific communicative events (narrative, conversation, etc.), elicitation of narrative and other elicitation methods (for instance, mapping tasks), translation tasks. These activities will involve informants in the minority communities as well as, where possible, local associations promoting the minority languages; the cooperation with local association has in some cases already been initiated and will be enforced.

Third (months 9-10), the documentation will be made accessible and a database of contact-induced phenomena will be created. Based on previous experiences of typological database (WOLD, AfBO) the database will include the contact-induced phenomena detected in the investigated languages arranged according to grammar domain – phonology, nominal morphology, verbal morphology, functional words, phrase structure, clause structure – and will allow a straightforward comparison between languages.

Finally (months 11-12), based on the database further research will be carried out in a comparative perspective in order to define common phenomena in different languages and generalizations related to CILC. The comparative method is essential in the study of language contact as well as in many other domains of research on language. It has been largely employed in recent years in order to establish general tendencies and typological generalizations in the study of contact between languages and will be a methodological pillar within the project. In this phase dissemination activities will also be set up.

Struttura dell'Università di Udine presso la quale verrà sviluppata l'attività di ricerca / Department or other structure of the University of Udine where research activities will be carried out:

Dipartimento di studi umanistici e del patrimonio culturale (DIUM) / Department of humanities and cultural heritage

Importo dell'assegno di ricerca (al lordo oneri carico assegnista) / Total grant gross for the research fellowship:

€ 19.367,00

Durata dell'assegno di ricerca / Duration of the research fellowship “assegno di ricerca”:

12 mesi / months

Finanziamento / Financed by:

Requisiti di ammissione / Minimum qualifications necessary:

- Possesso di un diploma di laurea vecchio ordinamento (ante decreto 3 novembre 1999 n. 509) o di laurea specialistica/magistrale (ex decreto 3 novembre 1999 n. 509 e decreto 22 ottobre 2004 n. 270) o titolo equivalente conseguito all’estero;
- possesso di un curriculum scientifico professionale idoneo allo svolgimento dell’attività di ricerca contemplata.
- University degree obtained before Decree n. 509 of 3 November 1999 or specialist/Master’s degree (post decree n. 509 of 3 November 1999 and decree n. 270 of 22 October 2004) or equivalent degree obtained abroad;
- professional scientific curriculum suitable for the research activity above mentioned.

Procedura selettiva / Competition procedure:

Valutazione per titoli e colloquio / Evaluation of titles and oral exam

I risultati della valutazione dei titoli saranno resi noti agli interessati nel corso del colloquio / The evaluation of the qualifications will be disclosed to candidates during the interview
