Decree of the Rector n. 1242 of 29/11/2023
Competition for awarding 1 research grant at the University of Udine

DISCLAIMER:
The official and legally binding call for applications is in Italian only. This document cannot be used for legal purposes and is only meant to provide information in English on the call for applications (Decree of the Rector n. 1242 of 29/11/2023). Please refer to the official call published on: https://www.uniud.it/it/albo-ufficiale

Any change and integration will be made available on the above mentioned web page. Therefore, no personal written communication regarding the examination date and/or competition results shall be provided to applicants.

Annex 1

Competition announcement for the assignment of 1 research grant at the University of Udine, entitled “Assessment of rainfall-extreme impacts on induced hazards” SSD: ICAR/02 (principal investigator, Elisa Arnone)

Research grant funded by the resources of the project PRIN 2022 - Prot. n. 2022ZC2522

Art. 1
A selection procedure is hereby launched for the award of 1 research grant at the University of Udine, as identified in Attachment A which constitutes an integral part of the present announcement.

The research grant is linked to the research project and is subject and conditioned upon the relative funding.

The fellowship may be renewed, in compliance with Art. 22, Law No. 240 of 30 December 2010 (as in the text in force before the implementation of the Conversion Law of the D.L. 36/2022, L. 79/2022), Law No. 11 of 27 February 2015, and the current regulations of the University of Udine for awarding research grants, issued with the Rector’s Decree No. 182 of 31 March 2021. The renewal is subject to the scientific coordinator’s positive assessment of the researcher’s activities, an adequate scientific rationale, and a corresponding financial covering.

The research fellowship does not give rise to any right with regards to accessing University posts.

Any personal communication to candidates related to this selection will be sent exclusively to the email address indicated when registering for the selection, as mentioned in Art. 5.

Art. 2
The research grant described in this competition announcement and the required qualifications to apply for the position are identified in Attachment A. The lack of the admission requirements leads to the automatic exclusion from the competition procedure.

Possession of a PhD or equivalent degree obtained abroad or, only for the interested areas, of a medical specialization accompanied by an adequate scientific production, constitutes a preferential qualification for awarding the research fellowship of this selection, if it has not been provided as a mandatory requirement.
For the only purpose of the admission to the competition, the Examining Board (Art. 7) shall assess the equivalence of the qualification obtained abroad, except for the evaluation of the medical specialization qualification to which Article 38 of the Legislative Decree 165/2001 and subsequent modifications and additions, and EU regulations on the matter, shall be applied.

The Examining Board will proceed to the evaluation of the qualification obtained abroad according to the documentation attached to the application form. The Examining Board may exclude the candidate if the submitted documentation does not provide sufficient information for the assessment. Therefore, applicants must enclose all the documentation in their possession relating to their qualification in order to provide the Examining Board with sufficient information for assessment.

Candidates holding a qualification issued by a European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:
- Supplement Diploma in English issued by the competent University.
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the "diplome" service at https://cimea.diplo-me.eu/udine/#/auth/login

Candidates holding a qualification issued by a non-European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:
- Declaration of the on-site value of the qualification and the certificate relating to the degree with examinations and grades. A certificate in a language other than Italian or English must be accompanied by an official translation into one of these languages (certified by the competent diplomatic-consular authority or certified by a court in Italy).
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the "diplome" service at https://cimea.diplo-me.eu/udine/#/auth/login

If the Supplement Diploma or the statement/attestation of comparability are not available when signing the contract, the applicant must demonstrate that he/she has requested the documentation and submit it as soon as possible.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of required documents, failure to sign the selection application or submission of the selection application in a manner different from what is provided for in this call for applications will be communicated to applicants exclusively at the email address indicated in the application form.

Art. 3
The research grant referred to in this call for applications cannot be awarded:
- to employees of Universities and the entities referred to in Article 22, section 1, of Italian Law no. 240 of 30 December 2010 (in the text prior to the reform introduced by Law no. 79 of 29 June 2022);
- to those who have already been awarded research grants pursuant to Italian Law no. 240 of 30 December 2010 (prior to the reform introduced by Law no. 79 of 29 June 2022) for the maximum period provided by law, even if not continuously, excluding the period in which the grant was used in conjunction with the doctorate, up to the legal term of the relative course;
- to those who have already benefited from research grants and fixed-term researcher contracts provided for, respectively, in Articles 22 and 24 of Italian Law no. 240 of 30 December 2010 (in the
text prior to the reform introduced by Law no. 79 of 29 June 2022), for a total of 12 years, even if not consecutive;
d. to anyone who has a degree of kinship or affinity, up to and including the fourth degree, with:
  - the Rector, the Director General or a member of the Board of Directors of the University of Udine;
  - the scientific supervisor or a professor/researcher belonging to the department or organisation
  hosting the research grant in question.

The research grant provided for in this call for applications cannot be combined:
a) with scholarships of any kind, except for those granted by Italian or foreign institutions to
  supplement, by means of stays abroad, the fellow's training or research activities;
b) with other research grants;
c) with an employment relationship, even if part-time, without prejudice to the relevant provisions for
  employees of public administrations.

The grant awarded under this call for applications is also incompatible with simultaneous attendance at
university degree courses, either Bachelor's degree or Master’s degree courses, research Doctorates
with scholarships and medical specializations, in Italy or abroad.

Art. 4

Applicants must enclose with their application, under penalty of exclusion, the following documents:
a) their professional scientific CV, highlighting the candidate's aptitude for carrying out and
  implementing the research project (Attachment A);
b) their identity card, their passport or any other identification document¹;
c) (for candidates with a foreign qualification only) certification or self-certification of both the
  academic qualification required for the admission to the selection, and of the exams (with
  evaluation) taken during the period of study abroad, and of any other document that can be useful to
  the evaluation of the degree by the Examining Board.

Applicants can attach to the application, publications and any other certification considered useful to
  demonstrate the qualification based on the research program (Attachment A) and to certify any
  research activity accomplished at public or private institutes (indicating the starting and ending date
  and the duration).

The documents and qualifications mentioned above must be submitted in Italian or English. Those that
  are not as requested will not be evaluated. Documents originally written in a language other than
  Italian or English must come with a translation in Italian or English, that the candidate will do on its own
  responsibility. The translation can be an abstract concerning the thesis.

Italian and Community candidates wishing to submit qualifications referring to conditions and facts
  attested by Public Administrations must proceed exclusively with self-certification.
Non-EU citizens legally residing in Italy may self-certify only data that can be verified or certified by
  Italian public bodies. They may also use declarations in lieu when provided for by an international
  convention between Italy and the declarant's country of origin.
Non-EU citizens not residing in Italy cannot self-certify.

Only the qualifications possessed by the candidate on the date the application form is submitted and
  submitted in accordance with the procedures set out in Article 5 will be assessed.

¹ Please be aware that the residence permit is not an identification document.
Failure to submit mandatory documents provided for in this article will constitute grounds for exclusion from the selection.

**Art. 5**

The submission of the applications for the present call starts on December 7, 2023 at 2:00 pm (Italian time) and ends on January 26, 2024 at 2:00 pm (Italian time).

The application to take part in the selection must be completed, under penalty of exclusion, using the appropriate online procedure, available at the link [https://pica.cineca.it/](https://pica.cineca.it/)

The procedure involves an applicant registration step, for those who do not already have an account, and then an application completion step.

Once completed, the online application must be signed in the manner described in the online procedure (manual signature with attached identity document or digital signature), under penalty of exclusion from selection. The application does not have to be signed if you access the above-mentioned online procedure using your SPID ID.

The qualifications referred to in Article 4 must be attached to the application in .pdf format. Individual .pdf files may not exceed 30MB.

The application for participation in the selection is automatically sent to the University of Udine with the definitive closing of the online procedure.

The University Administration:
- is not responsible if it is impossible to read the submitted documentation in electronic format due to damaged files;
- shall not accept or take into consideration qualifications or documents received in paper form or by any means other than what is specified in this article.

Reference to documents or publications already submitted in connection with other competitions is not allowed.

The Administration is not responsible for any missing document or communication because of inaccurate indication of residence and/or address submitted by the candidate during the application. Also, the Administration is not responsible if the candidate has not communicated changes in this information, or has communicated them too late. The Administration is also not responsible for any postal or telegraphic problems not attributable to the Administration itself.

Applicants are advised not to wait until the last few days before the closing date to submit their application. The University accepts no responsibility for any malfunctions due to technical problems and/or overloading of the communication line and/or application systems.

**Art. 6**

The selection procedure is held in accordance with the modality indicated in Attachment A.

The test will aim to assess the general preparation, experience and aptitude for research of the candidate. It will consist in the evaluation of the professional scientific curriculum, of the publications and qualifications presented, and of the interview, where foreseen.
Art. 7

The Examining board for the competition is identified in Attachment A of the present competition announcement, of which it is an integral part.

At its first meeting, the Examining board shall appoint its President and Secretary, and establish the criteria and methods for evaluating the qualifications and the interview, where foreseen.

The results of the qualifications assessment must be disclosed to applicants during the interview, where foreseen.

The Examining board can award a maximum of 100 points (one hundred out of one hundred) to the selection.

At the end of the evaluation procedure, the Examining board shall formulate the general merit list based on the overall score of each candidate, and draw up the minutes of the whole competition procedure.

Based on the ranking list, the assignment is awarded to candidates who have obtained a minimum overall score of 70/100 (seventy out of one hundred).

The Examining board's judgement is final.

The ranking list will be made public exclusively through publication on the University's official website.

Applicants will not be notified of the outcome of the evaluation.

Those who do not declare their acceptance of the research grant and do not present themselves at the research centre within the deadline communicated by the latter, even if not formally, shall lose the right to receive it. Exceptions to this term will only be granted in cases of documented force majeure.

Art. 8

The research activity cannot be started before signing the contract defining the terms and conditions of the collaboration.

The activity covered by the research grant must have the following characteristics:

a) it must be carried out as part of the research programme covered by the grant and not be a merely technical support to it;

b) it must have a close connection with the realization of the research program for which the winner of the grant has been awarded the contract;

c) it must be continuous and, in any case, temporally defined, not merely occasional, and in coordination with the overall activity of the University;

d) it must be carried out autonomously, solely within the limits of the programme prepared by the programme supervisor, without predetermined working hours.

The researcher is required to submit a detailed written report on the work carried out and the results achieved, accompanied by the opinion of the scientific supervisor, to the reference organisation at the intervals set out in the contract. The researcher must also submit interim reports and timesheets, if requested by the reference organisation.

Either the fellow or the reference organisation may withdraw from the contract.
The reference organisation may terminate the contract not only in the cases referred to in Article 9, sections 2 and 3, of the "Internal rules for awarding research grants pursuant to law 240 of 30 December 2010" of the University of Udine, but also in the event the research project and therefore the financial coverage on which the research grant is based cease to exist.

Art. 9
The following legal dispositions shall apply to the grant referred to in this call for applications:
- for tax matters, the provisions of Article 4 of Italian Law no. 476 of 13 August 1984, as subsequently amended and supplemented;
- for social security matters, the provisions of Article 2(26) et seq. of Italian Law no. 335 of 8 August 1995, as subsequently amended and supplemented;
- for mandatory maternity leave, the provisions of the Italian Ministerial Decree of 12 July 2007;
- with regard to sick leave, the provisions of Article 1(788) of Italian Law no. 296 of 27 December 2006 and subsequent amendments.

During the period of mandatory maternity leave, the allowance paid by INPS according to Art. 5 of the Italian Ministerial Decree of 12 July 2007 is supplemented by the University up to the full amount of the research grant.

The grant will be paid in monthly instalments.

Art. 10
The data collected as part of the procedure referred to in Art. 5 are necessary to properly manage the selection procedure, for any subsequent management of the research grant and for purposes related to managing services provided by the University. The University of Udine is the Data Controller. At any time, the data subject may request access, rectification and, depending on the University's institutional purposes, cancellation and restriction of processing or oppose the processing of their data. The data subject can always lodge a complaint with the Italian Data Protection Authority. The complete disclosure is available on the University of Udine website in the "Privacy" section, accessible from the home page www.uniud.it Direct Link: https://www.uniud.it/it/it/pagine-speciali/guida/privacy

Art. 11
For all matters not expressly mentioned in this call for applications, refer to the regulations in force on the subject cited in the introduction and to the "Internal rules for awarding research grants pursuant to Italian Law no. 240 of 30 December 2010" of the University of Udine, issued by Rector's Decree no. 182 of 31 March 2021.

Art. 12
The procedure supervisor is Dr Sandra Salvador, Head of the Research Services Area of the University of Udine.

The Responsible office at the University of Udine is "Area Servizi per la Ricerca - Ufficio Formazione per la Ricerca", via Mantica n. 31 - 33100 Udine, Italia.

To request information about the call for applications, please complete the following form available on the University of Udine website:
https://helpdesk.uniud.it/SubmitSR.jsp?type=req&accountid=universityofudine&populateSR_id=42105

Testo in italiano:
Premessa
I rischi naturali legati alle precipitazioni intense sono una delle principali cause di perdite economiche e di vite umane. Il know-how sulla valutazione degli estremi e dei loro impatti a scala locale necessita ancora di ulteriori approfondimenti. In questo contesto, l'Università degli Studi di Udine coordina un progetto PRIN 2022 dal titolo INTENSE, “rainFall exTremEs and their Impacts: from local to national Scale”, in collaborazione con le Università degli Studi di Palermo, Padova e CNR. Le osservazioni storiche disponibili dai registratori puntuali non possono campionare adeguatamente la variabilità spaziale delle precipitazioni estreme in aree con forti gradienti climatologici, come le regioni costiere e orografiche. Proprio queste ultime zone sono interessate dai maggiori rischi legati alle precipitazioni, soprattutto in Italia. INTENSE affronterà queste criticità combinando osservazioni provenienti da pluviometri, radar meteorologici e satelliti, approcci statistici all'avanguardia, generatori meteorologici stocastici e modelli a base fisica. L'intero progetto mira dunque a sviluppare (1) nuovi approcci per la riduzione delle precipitazioni estreme dalle scale satellitari alle scale radar meteorologiche, (2) nuovi approcci statistici per l'analisi degli estremi puntuali e spaziali dalle osservazioni satellitari delle precipitazioni e (3) una framework per quantificare e prevedere i rischi legati agli scivolamenti indotti dalle precipitazioni intense.
L'assegno di ricerca disponibile presso l'università degli Studi di Udine si concentrerà su quest'ultimo task, con l'obiettivo di utilizzare la mappatura spaziale ad alta risoluzione delle precipitazioni estreme per fornire valutazioni e proiezioni delle probabilità di dissetti superficiali a scala di bacino, analizzando una gamma rappresentativa di caratteristiche climatiche/geomorfologiche. Verrà adottato un approccio spazialmente distribuito e fisicamente basato, con l'applicazione di un modello numerico eco-idrologico che integra il modulo idrologicoc con una componente di dinamica della...
vegetazione e instabilità del suolo. Il modello simula l'interazione dei processi idrologici a scala di bacino, fornendo la risposta idrologica non solo in termini di deflusso, ma anche in termini di distribuzione spaziale dell'umidità del suolo. La framework sarà applicata ad un bacino di studio situato in Friuli Venezia Giulia (Italia). In relazione a questo progetto, si propone il programma di ricerca di seguito descritto.

**Obiettivi e sviluppo del programma di ricerca**

L'obiettivo è quantificare il potenziale impatto delle precipitazioni ordinarie ed estreme sulla probabilità di dissesti superficiali e del rischio idrogeologico in un bacino studio del Friuli Venezia Giulia. Per raggiungere questo obiettivo è richiesto:

- Rilievo dei dataset disponibili nelle banche dati della regione Friuli Venezia Giulia e delimitazione dell'area di studio.
- Caratterizzazione delle proprietà del suolo (idrologiche, granulometriche, etc) dell'area di studio.
- Generazione di scenari sintetici di precipitazioni.
- Pre-elaborazione dei dati di input spaziali e temporali;
- Applicazione di un modello di impatto (Amone et al., 2011) per stimare la probabilità di dissesto superficiale indotto dalle precipitazioni intense.
- Derivazione delle proprietà statistiche degli eventi simulati.

**Competenze richieste/preferite**

Al fine di sviluppare il programma di ricerca descritto, si richiedono alcune competenze specifiche sulle seguenti tematiche e strumenti:

- Software di calcolo e analisi dati quali Matlab, R;
- Metodi di analisi delle serie temporali di variabili idro-meteorologiche;
- Software di analisi spaziali quali Qgis;
- Linguaggio shell scripting del terminal linux;
- Conoscenza dei principi fisici della modellazione idro-morfodinamica costruita sulla modellazione idrologica fisicamente basata.

**Text in English:**

**Introduction**

Rainfall-related hazards are one of the main causes of loss of life and economic damage, in Italy and globally. Knowledge about extreme precipitation and its impacts at local to national scales still needs to be further explored. In this context, the University of Udine will coordinate a funded PRIN 2022 project titled INTENSE, i.e. “Rainfall ExtremeEs and their impacts: from local to national ScalEs”, in collaboration with University of Palermo, University of Padova and CNR. The long historical rainfall records available from rain gauges cannot adequately sample the spatial variability of extreme rainfall in areas with strong climatological gradients, such as orographic and coastal regions. However, these are the areas where most rainfall-related hazards occur, especially in Italy. INTENSE will address these issues by combining observations from rain gauges, weather radars and satellites, state-of-the-art statistical approaches, stochastic weather generators, and physically-based models. The whole project aims to develop (1) new approaches for the downscaling of extreme rainfall from the satellite scales to the weather radar scales, (2) novel statistical approaches to the analysis of point and spatial extremes from satellite rainfall observations, and (3) a novel integrated framework for quantifying and projecting risks related to rainfall-triggered landslides.

The research fellowship available at University of Udine will focus on this last task, with the aim of adopting high spatial resolution mapping of rainfall extremes to provide evaluations and projections of probabilities of shallow mass-movements for catchments characterized by a representative range of climatic/geomorphological characteristics. It will be adopted a spatial-distributed and physically-based approach with the application of a numerical eco-hydrological model that couples a hydrological module with a component of vegetation dynamics and soil instability. The model simulates the
interaction of the hydrological processes at the basin scale, providing the hydrological response not only in terms of runoff, but also in terms of spatial distribution of soil moisture. The framework will be applied to a case study basin in Friuli Venezia Giulia region (Italy).

Objectives and development of the research programme

The aim is to quantify the potential impact of ordinary and extreme rainfall on hydrogeological hazards, such as shallow-mass movements, in a basin study in Friuli Venezia Giulia. To achieve this, the following program is required:
- Survey of the datasets available in the data banks of the Friuli Venezia Giulia region, and delimitation of the study area;
- Soil characterization of the study area;
- Generation of synthetic precipitation and meteorological scenarios;
- Spatial and temporal input data pre-processing;
- Application of a hydrological-stability impact model (Arnone et al., 2011) to estimate probabilities of rainfall-induced occurrences of shallow failures.
- Derivation of statistical properties failures occurrences.

Required/preferable skills

In order to develop the research described program, the following specific skills are required:
- Programming software such as Matlab, R, or Python;
- Methods of analysis of the time series of hydro-meteorological variables;
- Software of spatial analysis such as Qgis;
- Shell Scripting language of linux terminal;
- Knowledge of the physical principles of hydro-morphodynamic modelling built on physically based hydrological modelling.

Struttura dell'Università di Udine presso la quale verrà sviluppata l’attività di ricerca / Department or other structure of the University of Udine where research activities will be carried out:

Dipartimento Politecnico di Ingegneria e Architettura (DPIA) / Polytechnic Department of Engineering and Architecture

Importo dell'assegno di ricerca (al lordo oneri carico assegnista) / Total grant gross for the research fellowship:

€ 29,184.46

Durata dell'assegno di ricerca / Duration of the research fellowship “assegno di ricerca”:

16 mesi / months

Finanziamento / Financed by:

Requisiti di ammissione / Minimum qualifications necessary:

- Possesso di un diploma di laurea vecchio ordinamento (ante decreto 3 novembre 1999 n. 509) o di laurea specialistica/magistrale (ex decreto 3 novembre 1999 n. 509 e decreto 22 ottobre 2004 n. 270) o titolo equivalente conseguito all’estero;
- possesso di un curriculum scientifico professionale idoneo allo svolgimento dell’attività di ricerca contemplata.
- University degree obtained before Decree n. 509 of 3 November 1999 or specialistic/Master’s degree (post decree n. 509 of 3 November 1999 and decree n. 270 of 22 October 2004) or equivalent degree obtained abroad;
- professional scientific curriculum suitable for the research activity above mentioned.

Procedura selettiva / Competition procedure:

Valutazione per titoli e colloquio / Evaluation of titles and oral exam

I risultati della valutazione dei titoli saranno resi noti agli interessati nel corso del colloquio / The evaluation of the qualifications will be disclosed to candidates during the interview

<table>

Per sostenere il colloquio i candidati devono esibire un valido documento di riconoscimento. / Candidates must come to the interview with a valid identity document.

Eventuali variazioni saranno rese note esclusivamente mediante pubblicazione all’albo ufficiale on line dell’Ateneo / Any change will be made public solely through publication on the University web site http://web.uniud.it/ateneo/normativa/albo_ufficiale

Nota / Note: Le indicazioni sulle modalità di svolgimento della prova in modalità telematica saranno inviate ai candidati con successiva email da parte del Presidente della Commissione. Ai fini dell’identificazione e a pena di esclusione dalla procedura selettiva, ciascun candidato è tenuto ad identificarsi prima che il colloquio abbia inizio, esibendo il medesimo documento di identità allegato alla domanda di ammissione al concorso. Il candidato deve risultare reperibile nella giornata e all’orario indicato sul bando. Il mancato collegamento, l’irreperibilità del candidato nel giorno o nell’orario stabilito o la mancata esibizione del documento identificativo, sono motivo di esclusione dalla procedura selettiva. La registrazione delle prove orali è vietata. L’Ateneo adotterà pertanto tutti i provvedimenti in suo potere per tutelare i soggetti coinvolti qualora venissero diffuse tramite internet – o altri mezzi di diffusione pubblica – video, audio o immagini della procedura selettiva. / Instructions on how the video interviewing will be conducted will be provided to candidates by the Chairman of the Examining Board via email. For identification purposes, each candidate is required to identify him/herself before the interview by exhibiting the same identification document attached to the application. Candidates must be available on the day and time established by the call for applications. Failure of the candidate to establish a video connection, the unavailability of the candidate on the day and/or time established or failure of the candidate to provide the required identification document are
all grounds for exclusion from the selection procedure. Recording of the video interviews is prohibited. The University will adopt all the measures within its power to protect all personnel involved as a result of dissemination via the internet or via other forms of public dissemination, of videos, audios or other pictures of the selection procedures.
