Any personal communication to candidates related to this selection will be sent exclusively to the email address indicated when registering for the selection, as mentioned in Art. 5.

Art. 2
The research grant described in this competition announcement and the required qualifications to apply for the position are identified in Attachment A. The lack of the admission requirements leads to the automatic exclusion from the competition procedure.

Possession of a PhD or equivalent degree obtained abroad or, only for the interested areas, of a medical specialization accompanied by an adequate scientific production, constitutes a preferential qualification for awarding the research fellowship of this selection, if it has not been provided as a mandatory requirement.
For the only purpose of the admission to the competition, the Examining Board (Art. 7) shall assess the equivalence of the qualification obtained abroad, except for the evaluation of the medical specialization qualification to which Article 38 of the Legislative Decree 165/2001 and subsequent modifications and additions, and EU regulations on the matter, shall be applied.

The Examining Board will proceed to the evaluation of the qualification obtained abroad according to the documentation attached to the application form. The Examining Board may exclude the candidate if the submitted documentation does not provide sufficient information for the assessment. Therefore, applicants must enclose all the documentation in their possession relating to their qualification in order to provide the Examining Board with sufficient information for assessment.

Candidates holding a qualification issued by a European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:

- Supplement Diploma in English issued by the competent University.
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the “diplome” service at https://cimea.diplo-me.eu/udine/#/auth/login

Candidates holding a qualification issued by a non-European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:

- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the “diplome” service at https://cimea.diplo-me.eu/udine/#/auth/login

If the Supplement Diploma or the statement/attestation of comparability are not available when signing the contract, the applicant must demonstrate that he/she has requested the documentation and submit it as soon as possible.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of required documents, failure to sign the selection application or submission of the selection application in a manner different from what is provided for in this call for applications will be communicated to applicants exclusively at the email address indicated in the application form.

Testo in italiano:

In linea con la centralità di questo genere letterario e con l’intento di agevolarne lo studio, il progetto prevede la prosecuzione del lavoro di reperimento e riorganizzazione dei testi manoscritti riportanti questioni disputate di medicina e filosofia: nello specifico, ci si concentrerà sui documenti databili tra la fine del XIII secolo e la prima metà del XIV secolo e ascrivibili all’ambiente italiano, con particolare attenzione alla produzione dei maestri bolognesi. In seguito alla trascrizione e alla schedatura di un sufficiente numero di questioni, in una seconda fase il progetto si propone di portare avanti di pari passo l’operazione di codifica digitale in linguaggio XML dei testi esaminati, al fine di realizzare un archivio digitale che raccolga i dati salienti dei documenti raccolti e che si presti a una futura...
espansione, tramite l’integrazione di ulteriore materiale. Questa banca dati è pensata per offrire, tramite metadatazione, uno strumento che faciliti lo studio del patrimonio testuale in oggetto, rendendone più agevole la consultazione e garantendo una panoramica dettagliata sul tema. L’obiettivo della ricerca è dunque quello di creare uno strumento e un ambiente digitale che metta a disposizione un ampio repertorio di questo tipo distintivo di documento erudito, la "questio" filosofica o medica italiana di inizio Trecento. IN PALESTRIS vuole essere una biblioteca digitale completa di questioni filosofiche, mediche e astrologiche tenute in Italia nella prima metà del XIV secolo. Il suo nome deriva da una pratica disputativa unica (e ancora poco indagata) in uso negli Studia italiani di Arti e Medicina nel periodo considerato: le "palestre".

**Text in English:**

The collections of disputed questions in the Italian Studia of Arts and Medicine, particularly those drawn up in the Bolognese context and referring to the first half of the 14th century, have proved to be an effective tool both for investigating the intellectual dynamics of the academic-cultural environment of the time and for the possibility of reconstructing and verifying, on the basis of manuscript testimonies, statutory provisions dating back to later periods. The study of the rich tradition of fourteenth-century disputational practices has only been pursued systematically in recent times, following the groundbreaking work of Maier (1944, 1964), Ermatinger (1954), Kuksewicz (1968) and Siraisi (1981), later taken up and further developed by Fioravanti (2015, 2016, 2018a-b), Chandelier (2017), Robert (2008, 2014) and Crisciani et al. (2015). As evidence of the lasting impact of the questio genre and of an interest that has all but died down over time, one is reminded of the fortune of the monumental work of Gentile da Foligno, whose Quaestiones et tractatus extravagantes were still being printed in Venice in the 1520s. The bulk of this heritage is preserved in various collections of issues evidenced by around twenty manuscripts, in which some Italian Quaestiones quodlibetales are also collected.
In line with the centrality of this literary genre and with the intention of facilitating its study, the project envisages the continuation of the work of finding and reorganising manuscripts containing disputed questions on medicine and philosophy. Specifically, the focus will be on documents datable between the end of the 13th century and the first half of the 14th century and attributable to the Italian milieu, with particular attention to the production of the Bolognese masters. Following the transcription and cataloguing of a sufficient number of questions, in a second phase the project intends to go ahead with the digital encoding in XML language of the examined texts, in order to create a digital archive that gathers the salient data of the collected documents and lends itself to future expansion through the integration of further material. This database is designed to offer, through metadata, a tool that facilitates the study of the textual heritage in question, making it easier to consult and providing a detailed overview of the subject. The aim of the research is therefore to create a tool and a digital environment that makes available an extensive repertoire of this distinctive type of scholarly document, the Italian philosophical or medical ‘questio’ of the early 14th century. IN PALESTRIS aims to be a comprehensive digital library of philosophical, medical and astrological questions held in Italy in the first half of the 14th century. Its name derives from a unique (and still little researched) disputative practice in use in the Italian Studia of Arts and Medicine in the period in question: the ‘palestre’.
