Decree of the Rector n. 1281 of 04/12/2023
Competition for awarding 1 research grant at the University of Udine

DISCLAIMER:
The official and legally binding call for applications is in Italian only. This document cannot be used for legal purposes and is only meant to provide information in English on the call for applications (Decree of the Rector n. 1281 of 04/12/2023). Please refer to the official call published on: https://www.uniud.it/it/albo-ufficiale

Any change and integration will be made available on the above mentioned web page. Therefore, no personal written communication regarding the examination date and/or competition results shall be provided to applicants.

Annex 1

Competition announcement for the assignment of 1 research grant at the University of Udine, entitled “Data collection for a risk prediction study and development of novel dietary assessment tools: the INDACO project” SSD: MED/42 (principal investigator, Maria Parpinel)

Research grant funded by the resources of the project PRIN 2022 - Prot. n. 20227YCB5P

Art. 1
A selection procedure is hereby launched for the award of 1 research grant at the University of Udine, as identified in Attachment A which constitutes an integral part of the present announcement. The research grant is linked to the research project and is subject and conditioned upon the relative funding. The fellowship may be renewed, in compliance with Art. 22, Law No. 240 of 30 December 2010 (as in the text in force before the implementation of the Conversion Law of the D.L. 36/2022, L. 79/2022), Law No. 11 of 27 February 2015, and the current regulations of the University of Udine for awarding research grants, issued with the Rector's Decree No. 182 of 31 March 2021. The renewal is subject to the scientific coordinator's positive assessment of the researcher's activities, an adequate scientific rationale, and a corresponding financial covering.

The research fellowship does not give rise to any right with regards to accessing University posts.

Any personal communication to candidates related to this selection will be sent exclusively to the email address indicated when registering for the selection, as mentioned in Art. 5.

Art. 2
The research grant described in this competition announcement and the required qualifications to apply for the position are identified in Attachment A. The lack of the admission requirements leads to the automatic exclusion from the competition procedure.

Possession of a PhD or equivalent degree obtained abroad or, only for the interested areas, of a medical specialization accompanied by an adequate scientific production, constitutes a preferential
qualification for awarding the research fellowship of this selection, if it has not been provided as a mandatory requirement.

Candidates in possession of a specialization qualification in the medical area obtained abroad must also attach the recognition decrees issued by the Italian Ministry of Health in order to avail themselves of the qualification of specialist doctor and of the title of surgeon. These recognition decrees are also required if the qualification has already been recognized in another country of the European Union. http://www.salute.gov.it/ProfessioniSanitariePubblico/

For the only purpose of the admission to the competition, the Examining Board (Art. 7) shall assess the equivalence of the qualification obtained abroad, except for the evaluation of the medical specialization qualification to which Article 38 of the Legislative Decree 165/2001 and subsequent modifications and additions, and EU regulations on the matter, shall be applied.

The Examining Board will proceed to the evaluation of the qualification obtained abroad according to the documentation attached to the application form. The Examining Board may exclude the candidate if the submitted documentation does not provide sufficient information for the assessment. Therefore, applicants must enclose all the documentation in their possession relating to their qualification in order to provide the Examining Board with sufficient information for assessment.

Candidates holding a qualification issued by a European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:
- Supplement Diploma in English issued by the competent University.
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the "diplome" service at https://cimea.diplo-me.eu/udine/#/auth/login

Candidates holding a qualification issued by a non-European Research Area country, if successful, must submit, if not already attached to the application form one of the following options:
- Declaration of the on-site value of the qualification and the certificate relating to the degree with examinations and grades. A certificate in a language other than Italian or English must be accompanied by an official translation into one of these languages (certified by the competent diplomatic-consular authority or certified by a court in Italy).
- CIMEA Certificate of comparability of the foreign qualification, issued by CIMEA (Information Centre on Academic Mobility and Equivalence) via the "diplome" service at https://cimea.diplo-me.eu/udine/#/auth/login

If the Supplement Diploma or the statement/attestation of comparability are not available when signing the contract, the applicant must demonstrate that he/she has requested the documentation and submit it as soon as possible.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of required documents, failure to sign the selection application or submission of the selection application in a manner different from what is provided for in this call for applications will be communicated to applicants exclusively at the email address indicated in the application form.
Art. 3

The research grant referred to in this call for applications cannot be awarded:

a. to employees of Universities and the entities referred to in Article 22, section 1, of Italian Law no. 240 of 30 December 2010 (in the text prior to the reform introduced by Law no. 79 of 29 June 2022);

b. to those who have already been awarded research grants pursuant to Italian Law no. 240 of 30 December 2010 (prior to the reform introduced by Law no. 79 of 29 June 2022) for the maximum period provided by law, even if not continuously, excluding the period in which the grant was used in conjunction with the doctorate, up to the legal term of the relative course;

c. to those who have already benefited from research grants and fixed-term researcher contracts provided for, respectively, in Articles 22 and 24 of Italian Law no. 240 of 30 December 2010 (in the text prior to the reform introduced by Law no. 79 of 29 June 2022), for a total of 12 years, even if not consecutive;

d. to anyone who has a degree of kinship or affinity, up to and including the fourth degree, with:
   - the Rector, the Director General or a member of the Board of Directors of the University of Udine;
   - the scientific supervisor or a professor/researcher belonging to the department or organisation hosting the research grant in question.

The research grant provided for in this call for applications cannot be combined:

a) with scholarships of any kind, except for those granted by Italian or foreign institutions to supplement, by means of stays abroad, the fellow’s training or research activities;

b) with other research grants;

c) with an employment relationship, even if part-time, without prejudice to the relevant provisions for employees of public administrations.

The grant awarded under this call for applications is also incompatible with simultaneous attendance at university degree courses, either Bachelor’s degree or Master’s degree courses, research Doctorates with scholarships and medical specializations, in Italy or abroad.

Art. 4

Applicants must enclose with their application, under penalty of exclusion, the following documents:

a) their professional scientific CV, highlighting the candidate’s aptitude for carrying out and implementing the research project (Attachment A);

b) their identity card, their passport or any other identification document¹;

c) (for candidates with a foreign qualification only) certification or self-certification of both the academic qualification required for the admission to the selection, and of the exams (with evaluation) took during the period of study abroad, and of any other document that can be useful to the evaluation of the degree by the Examining Board.

Applicants can attach to the application, publications and any other certification considered useful to demonstrate the qualification based on the research program (Attachment A) and to certify any research activity accomplished at public or private institutes (indicating the starting and ending date and the duration).

The documents and qualifications mentioned above must be submitted in Italian or English. Those that are not as requested will not be evaluated. Documents originally written in a language other than

¹ Please be aware that the residence permit is not an identification document.
Italian or English must come with a translation in Italian or English, that the candidate will do on its own responsibility. The translation can be an abstract concerning the thesis.

Italian and Community candidates wishing to submit qualifications referring to conditions and facts attested by Public Administrations must proceed exclusively with self-certification. Non-EU citizens legally residing in Italy may self-certify only data that can be verified or certified by Italian public bodies. They may also use declarations in lieu when provided for by an international convention between Italy and the declarant's country of origin.

Non-EU citizens not residing in Italy cannot self-certify.

Only the qualifications possessed by the candidate on the date the application form is submitted and submitted in accordance with the procedures set out in Article 5 will be assessed.

Failure to submit mandatory documents provided for in this article will constitute grounds for exclusion from the selection.

Art. 5

The submission of the applications for the present call starts on January 12, 2024 at 2:00 pm (Italian time) and ends on February 9, 2024 at 2:00 pm (Italian time).

The application to take part in the selection must be completed, under penalty of exclusion, using the appropriate online procedure, available at the link https://pica.cineca.it/

The procedure involves an applicant registration step, for those who do not already have an account, and then an application completion step.

Once completed, the online application must be signed in the manner described in the online procedure (manual signature with attached identity document or digital signature), under penalty of exclusion from selection. The application does not have to be signed if you access the above-mentioned online procedure using your SPID ID.

The qualifications referred to in Article 4 must be attached to the application in .pdf format. Individual .pdf files may not exceed 30MB.

The application for participation in the selection is automatically sent to the University of Udine with the definitive closing of the online procedure.

The University Administration:
- is not responsible if it is impossible to read the submitted documentation in electronic format due to damaged files;
- shall not accept or take into consideration qualifications or documents received in paper form or by any means other than what is specified in this article.

Reference to documents or publications already submitted in connection with other competitions is not allowed.

The Administration is not responsible for any missing document or communication because of inaccurate indication of residence and/or address submitted by the candidate during the application. Also, the Administration is not responsible if the candidate has not communicated changes in this information, or has communicated them too late. The Administration is also not responsible for any postal or telegraphic problems not attributable to the Administration itself.
Applicants are advised not to wait until the last few days before the closing date to submit their application. The University accepts no responsibility for any malfunctions due to technical problems and/or overloading of the communication line and/or application systems.

**Art. 6**
The selection procedure is held in accordance with the modality indicated in Attachment A.

The test will aim to assess the general preparation, experience and aptitude for research of the candidate. It will consist in the evaluation of the professional scientific curriculum, of the publications and qualifications presented, and of the interview, where foreseen.

**Art. 7**
The Examining board for the competition is identified in Attachment A of the present competition announcement, of which it is an integral part.

At its first meeting, the Examining board shall appoint its President and Secretary, and establish the criteria and methods for evaluating the qualifications and the interview, where foreseen.

The results of the qualifications assessment must be disclosed to applicants during the interview, where foreseen.

The Examining board can award a maximum of 100 points (one hundred out of one hundred) to the selection.

At the end of the evaluation procedure, the Examining board shall formulate the general merit list based on the overall score of each candidate, and draw up the minutes of the whole competition procedure.

Based on the ranking list, the assignment is awarded to candidates who have obtained a minimum overall score of 70/100 (seventy out of one hundred).

The Examining board's judgement is final.

The ranking list will be made public exclusively through publication on the University's official website.

Applicants will not be notified of the outcome of the evaluation.

Those who do not declare their acceptance of the research grant and do not present themselves at the research centre within the deadline communicated by the latter, even if not formally, shall lose the right to receive it. Exceptions to this term will only be granted in cases of documented force majeure.

The selected candidate will have to undergo any health assessment deemed necessary by the competent doctor and aimed at issuing the assessment of suitability for the specific task according to the protocol of the host structure. The signature of the contract will be possible only after obtaining the judgment of suitability for the specific task by the Azienda Sanitaria Universitaria Friuli Centrale (ASU FC). Before signature of the research grant contract, the candidate awarded of reference research grant must submit a copy of the vaccination booklet or related certificate, and intradermal reaction – sec. Mantoux (performed in the last 12 months).
Art. 8

The research activity cannot be started before signing the contract defining the terms and conditions of the collaboration.

The activity covered by the research grant must have the following characteristics:

a) it must be carried out as part of the research programme covered by the grant and not be a merely technical support to it;

b) it must have a close connection with the realization of the research program for which the winner of the grant has been awarded the contract;

c) it must be continuous and, in any case, temporally defined, not merely occasional, and in coordination with the overall activity of the University;

d) it must be carried out autonomously, solely within the limits of the programme prepared by the programme supervisor, without predetermined working hours.

The researcher is required to submit a detailed written report on the work carried out and the results achieved, accompanied by the opinion of the scientific supervisor, to the reference organisation at the intervals set out in the contract. The researcher must also submit interim reports and timesheets, if requested by the reference organisation.

Either the fellow or the reference organisation may withdraw from the contract. The reference organisation may terminate the contract not only in the cases referred to in Article 9, sections 2 and 3, of the "Internal rules for awarding research grants pursuant to law 240 of 30 December 2010" of the University of Udine, but also in the event the research project and therefore the financial coverage on which the research grant is based cease to exist.

With regard to accident insurance and third-party liability, the provisions of art. 3 c. 5 of the "Internal rules for awarding research grants pursuant to Italian Law no. 240 of 30 December 2010" of the University of Udine, issued by Rector's Decree no. 182 of 31 March 2021, are applied. The Azienda Sanitaria Universitaria Friuli Centrale (ASU FC), by authorizing with a subsequent deed the access of the selected candidate to its facilities, ensures insurance cover for professional risks and third-party liability in the course of the authorized activity. The insurance policy for accidents and occupational diseases remains at the expense of the selected candidate. In the absence of such policy, the selected candidate will not be allowed to access the facilities of the Azienda Sanitaria Universitaria Friuli Centrale (ASU FC), and it will not be possible to proceed with the signature of the contract.

Art. 9

The following legal dispositions shall apply to the grant referred to in this call for applications:

- for tax matters, the provisions of Article 4 of Italian Law no. 476 of 13 August 1984, as subsequently amended and supplemented;
- for social security matters, the provisions of Article 2(26) et seq. of Italian Law no. 335 of 8 August 1995, as subsequently amended and supplemented;
- for mandatory maternity leave, the provisions of the Italian Ministerial Decree of 12 July 2007;
- with regard to sick leave, the provisions of Article 1(788) of Italian Law no. 296 of 27 December 2006 and subsequent amendments.
During the period of mandatory maternity leave, the allowance paid by INPS according to Art. 5 of the Italian Ministerial Decree of 12 July 2007 is supplemented by the University up to the full amount of the research grant.

The grant will be paid in monthly instalments.

Art. 10

The data collected as part of the procedure referred to in Art. 5 are necessary to properly manage the selection procedure, for any subsequent management of the research grant and for purposes related to managing services provided by the University. The University of Udine is the Data Controller. At any time, the data subject may request access, rectification and, depending on the University's institutional purposes, cancellation and restriction of processing or oppose the processing of their data. The data subject can always lodge a complaint with the Italian Data Protection Authority. The complete disclosure is available on the University of Udine website in the "Privacy" section, accessible from the home page www.uniud.it Direct Link: https://www.uniud.it/it/pagine-speciali/guida/privacy

Art. 11

For all matters not expressly mentioned in this call for applications, refer to the regulations in force on the subject cited in the introduction and to the "Internal rules for awarding research grants pursuant to Italian Law no. 240 of 30 December 2010" of the University of Udine, issued by Rector's Decree no. 182 of 31 March 2021.

Art. 12

The procedure supervisor is Dr Sandra Salvador, Head of the Research Services Area of the University of Udine.

The Responsible office at the University of Udine is "Area Servizi per la Ricerca - Ufficio Formazione per la Ricerca", via Mantica n. 31 - 33100 Udine, Italia.

To request information about the call for applications, please complete the following form available on the University of Udine website: https://helpdesk.uniud.it/SubmitSR.jsp?type=req&accountId=universityofudine&populateSR_id=42105

Responsible scientific of the research / Principal investigator:

Nome e cognome / Name and surname: Maria Parpinel
Qualifica / Position: Professor Associata / Associate Professor
Dipartimento / Department: Area Medica (DAME) / Medicine
Area MUR / Research field: 06 – Scienze Mediche
Settore concorsuale e Settore scientifico disciplinare / Scientific sector: 06/M1; MED/42 – Igiene generale e applicata

Titolo dell’assegno di ricerca / Topic of the research fellowship “assegno di ricerca”:
I bandi sono consultabili dal sito dell’Ateneo, del MUR e di Euraxess / The calls are available on the University, MUR and Euraxess websites

Testo in italiano:
Raccolta dati per uno studio di predizione del rischio e sviluppo di strumenti innovativi per la rilevazione della dieta: il progetto INDACO.

Text in English:
Data collection for a risk prediction study and development of novel dietary assessment tools: the INDACO project.

Obiettivi previsti e risultati attesi del programma di ricerca in cui si colloca l’attività dell’assegna di ricerca / Foreseen objectives and results of the research programme performed by the research fellow “assegno di ricerca”:
I bandi sono consultabili dal sito dell’Ateneo, del MUR e di Euraxess / The calls are available on the University, MUR and Euraxess websites

Testo in italiano:

Il programma di ricerca in oggetto si inserisce all’interno del progetto INDACO (finanziato da: “PRIN: PROGETTI DI RICERCA DI RILEVANTE INTERESSE NAZIONALE – Bando 2022”) che mira a utilizzare nuovi approcci statistici e di apprendimento automatico per migliorare i modelli di raccolta e analisi dei dati. Il progetto INDACO nasce dalla collaborazione tra la Prof.ssa Maria Parpinel (Dipartimento di Area Medica - DAME, Università di Udine), la Prof.ssa Valeria Edefonti (Università di Milano) ed il Prof. Francesco Pauli (Università di Trieste), e si caratterizza per avere obiettivi di ricerca ad elevata interdisciplinarietà.

Gli obiettivi del progetto INDACO sono i seguenti:
1) esplorare la non linearietà e la non additività nell'associazione tra modelli alimentari e rischio di cancro attraverso nuovi approcci statistici e di apprendimento automatico applicati a una rete di studi caso-controllo italiani che comprendono più di 12000 casi per 14 siti tumorali e più di 12000 controlli (Turati et al. Ann. Oncol. 2013, 24, 2651–2656);
2) valutare il rischio di cancro identificato proponendo: a) un modello di classificazione utilizzando studi caso-controllo condotti in Svizzera dove è stato utilizzato lo stesso disegno di studio e lo
stesso strumento di raccolta dati del database italiano di addestramento; b) un modello di predizione utilizzando nuovi dati raccolti da 300 adulti sani di età superiore ai 45 anni reclutati nelle Università di Udine e Milano;

3) esplorare il potenziale dell'apprendimento automatico per il riconoscimento degli alimenti a supporto di nuovi strumenti di valutazione della dieta basati su immagini;

Il progetto INDACO si pone come obbiettivo anche condividere l'idea che un'applicazione oculata dell'apprendimento automatico e di statistiche complexe possano essere in grado di far progredire le conoscenze in ambito nutrizionale e, nello specifico, dell'epidemiologia nutrizionale. I sottoprogetti del progetto includono: 1) un atlante italiano dei piatti con le ricette e i pesi corrispondenti; 2) un algoritmo di machine learning per stimare i pesi dalle immagini degli alimenti, per supportare il monitoraggio continuo della dieta e 3) la previsione del rischio di cancro per i soggetti italiani adulti e sani, da confrontare con le raccomandazioni degli esperti per ottenere nuove informazioni utili per le prossime linee guida sulla prevenzione del cancro.

Il programma di ricerca di 17 mesi consiste nella partecipazione nelle attività del gruppo di lavoro UNIUd del progetto INDACO. Le attività previste per l'assegnista sono relative agli obiettivi 2 e 4. Nel dettaglio:

1. partecipazione alla preparazione e organizzazione dello studio di previsione del rischio;
2. consulenza nutrizionale durante il processo di digitalizzazione dei questionari cartacei in una nuova web app: l'applicazione includerà una struttura ad albero per il caricamento dei dati da parte dell'intervistatore, e una sezione per lo scaricamento dei dati finali e delle assunzioni di nutrienti; queste ultime saranno automaticamente derivate dalla banca dati di composizione degli alimenti per studi epidemiologici in Italia (BDA) (http://www.bda-iedo.it/);
3. arruolamento del campione di dipendenti dell'università di Udine e di Milano, selezionati sulla base della distribuzione per sesso e per area geografica (Udine/Milano) dei precedenti studi caso kontrol Italiani (Turati et al. Ann. Oncol. 2013, 24, 2651–2656) come indicato nell'obiettivo n.1 del progetto INDACO;
5. gestione dei dati: revisione dei questionari raccolti e loro archiviazione;
6. consulenza nutrizionale nelle fasi di analisi e controllo dei dati dello studio di previsione del rischio, in collaborazione con il gruppo di lavoro dell'Università di Trieste;
7. sviluppo della banca dati pilota di immagini di alimenti e ricette italiane, in collaborazione con il gruppo di lavoro dell'Università di Milano, e gestione delle attività nelle cucine sperimentali che includono la preparazione degli alimenti, la raccolta delle immagini, e il mantenimento dei dati con la relativa documentazione;
8. gestione dei dati di composizione relativi alla banca dati pilota di ricette italiane, stimati a partire dagli ingredienti e dalla relativa ricetta utilizzando la banca dati di composizione degli alimenti per studi epidemiologici in Italia (BDA);
9. consulenza nutrizionale nell'applicazione degli algoritmi di machine learning per il riconoscimento e la classificazione delle immagini degli alimenti, in collaborazione con il gruppo di lavoro di Milano; i modelli di deep learning, preventivamente allenati su grandi database di immagini, saranno applicati per classificare automaticamente gli alimenti e stimare le porzioni a partire da nuove immagini.
Text in English:

Although diet may not inherently be as a strong risk factor for cancer as others, limitations in data collection and analysis paradigms may contribute to a reduced ability to identify these effects accurately [Krishnan and Ramyaa. Am. J. Clin. Nutr. 2020, 111, 1124–1126]. Challenges include accurate and precise measurement of diet, appropriately modelling diet complexity, and residual confounding.

The present research programme is based on the INDACO project (financed by “PRIN: PROGETTI DI RICERCA DI RILEVANTE INTERESSE NAZIONALE – Bando 2022”) which aims at using novel statistical and machine learning approaches to improve on data collection and analysis paradigms. The INDACO project originates from the collaboration between professor Maria Parpinel (department of Medicine- DAME, University of Udine), professor Valeria Edefonti (University of Milan), and professor Francesco Pauli (university of Trieste) resulting in the combination of multidisciplinary objectives.

The objectives of the INDACO project include:

1) exploring nonlinearity and nonadditivity within the association between dietary patterns and cancer risk through novel statistical and machine learning approaches applied on a network of Italian case-control studies including >12000 cases at 14 cancer sites and >12000 controls (Turati et al. Ann. Oncol. 2013, 24, 2651–2656);
2) evaluating the identified cancer risk via a classification model using Swiss case-control studies with the same design and data collection tool of the training Italian database and a prediction model using newly collected data from 300 middle-aged healthy university employees from Milan and Udine;
3) exploring the potential of machine learning for food recognition in support of novel image-based dietary assessment tools;

The expected results of the INDACO project are to popularize the idea that a judicious application of machine learning and refined statistics could advance nutrition and nutritional epidemiology. By-products include: 1) open Italian atlas of food dishes with corresponding recipes and weights; 2) machine learning algorithm for estimating weights from food images, to support continuous diet monitoring, and 3) cancer risk prediction for Italian middle-aged healthy subjects, to be compared with expert-based recommendations for informing next guidelines on cancer prevention.

The programme planned for 17 months include to participate in the activities of the UNIUd unit of the INDACO project. The expected activities of the research fellow are relative to the 2nd and 4th INDACO objectives. In details:

1. preparation and participation in the on-going phase of the cancer risk prediction study;
2. provision of advice on the digitalization of the paper-based questionnaires to a new web application: the application includes a tree structure section for data upload by the interviewer, and a section for downloading data outputs and nutrient intakes automatically derived from the Italian food composition database for epidemiological studies (BDA) (http://www.bda-ieu.it/);
3. enrolment of employees from the universities of Udine and Milan, recruited following percentages by sex and center of previous Italian case-control studies (Turati et al. Ann. Oncol. 2013, 24, 2651–2656);
4. data collection: data will be obtained from socio-demographic and lifestyle habits questionnaire interview, food frequency questionnaire interview (Decarli et al. Ann. Epidemiol. 1996, 6, 110–118),
clinical history, anthropometric, body composition (Body Impedence Assessment) and blood pressure measures;
5. revision of the food frequency questionnaires and data management;
6. provision of nutritional advice on data processing and checking of the cancer risk prediction study carried out within the University of Trieste unit;
7. development of the pilot dataset of food images together with the University of Milan, managing the organization of experimental kitchen activities, including food preparation, food image collection, and images and documented data upload;
8. management of food composition data of the pilot dataset of Italian recipes derived from food images using the Italian food composition database for epidemiological studies (BDA) within a recipe approach;
9. provision of nutritional advice on the application of machine learning algorithms to recognize and classify food images together with the University of Milan unit. Deep learning models, already pretrained on large image database, will be employed to automatically classify foods and portions from newly captured food images.

Struttura dell'Università di Udine presso la quale verrà sviluppata l'attività di ricerca / Department or other structure of the University of Udine where research activities will be carried out:

Dipartimento di Area Medica / Department of Medicine

Tipologia di attività assistenziale prevista in relazione alle esigenze del programma di ricerca / Type of care activity scheduled in relation to the needs of the research program:

Nessun contatto con pazienti ma solo con dati clinici sensibili. / No contact with patients but only with sensitive clinical data.

Struttura ospedaliera coinvolta / Hospital facility involved:

Azienda Sanitaria Universitaria Friuli Centrale (ASU FC) SOC Igiene ed Epidemiologia Valutativa.

Importo dell'assegno di ricerca (al lordo oneri carico assegnista) / Total grant gross for the research fellowship:

€ 30.500,00

Durata dell'assegno di ricerca / Duration of the research fellowship “assegno di ricerca”:

17 mesi / months

Finanziamento / Financed by:

Requisiti di ammissione / Minimum qualifications necessary:

- Possesso del titolo di Dottore di ricerca o titolo equivalente conseguito all’estero;
- possesso di un curriculum scientifico professionale idoneo allo svolgimento dell’attività di ricerca contemplata.
- Research doctorate or equivalent qualification obtained abroad;
- professional scientific curriculum suitable for the research activity above mentioned.

Procedura selettiva / Competition procedure:

Valutazione per soli titoli / Assessment of qualifications only

Commissione giudicatrice / Examining Board:
