Text in italiano:
Gli obbiettivi del programma di ricerca si collocano all’interno del progetto PRIN (Progetti di Ricerca di Rilevante Interesse Nazionale – Bando 2022) ArDiRe. Archivio e dizionario digitale dei primi ricettari artistici in lingua italiana (fine XIV-XVI secolo).

In tale contesto più ampio il programma di ricerca si propone la schedatura e l’archiviazione digitale dei ricettari tecnici individuati dal progetto ArDiRe come utili per definire in ambito artistico i materiali e le tecniche esecutive in uso tra la fine XIV e il XVI secolo. Infatti nell’ambito del gruppo di ricerca proponente del PRIN (oltre all’Università di Udine, l’Università degli studi di Torino e il CNR di Firenze) l’unità di Udine si occupa dell’avvio di un primo dizionario digitale.

In particolare il titolare dell’assegno di ricerca prenderà parte all’individuazione dei 50 lemmi che, individuati nei ricettari scelti, costituiranno il primo repertorio del lessico della pittura italiana delle origini proposto dal progetto PRIN ArDiRe con l’obiettivo finale della creazione del primo nucleo di voci del Dizionario Storico dei materiali e delle tecniche di Pittura (DISPI). Il progetto di ricerca prevede quindi una stretta collaborazione con le unità dell’Università degli studi di Torino e del Consiglio Nazionale delle Ricerche-CNR di Firenze che si occuperanno invece della trascrizione dei ricettari (o della verifica di testi trascritti già disponibili) e del loro inserimento nel software GATTO, sviluppato presso l’Istituto CNR Opera del Vocabolario Italiano (OVI) di Firenze.

Le voci del dizionario digitale proposto verranno compilate infatti secondo il modello di TLIO (Tesor della lingua Italiana delle Origini), il vocabolario in fase di compilazione da parte dell’OVI del CNR.
In riferimento ai testi presi in considerazione, ciascuna voce del vocabolario sviluppato conterrà una parte generale relativa alle varianti fonomorfologiche. Seguiranno poi la distribuzione geolinguistica; la prima attestazione nota in italiano; l’etimologia. Una seconda parte della scheda sarà invece volta a definire le tecniche di impiego, quale dato fondamentale nella storia materiale della pittura. Inoltre verrà proposto il collegamento con le principali risorse digitali di ambito artistico disponibili in rete sviluppate in Italia e all’estero.

Il vocabolario sarà ospitato in uno spazio dedicato della piattaforma LIDA del Laboratorio di Documentazione Storico Artistica del Dipartimento di Studi Umanistici e del Patrimonio Culturale dell’Università di Udine.

Nell’ambito dell’attività di ricerca verrà anche valutata l’eventualità e la modalità di raccogliere in piattaforma la visualizzazione delle carte dei ricettari individuati dal progetto, possibilmente con rimandi ai lemmi selezionati (anche per un solo testo preso ad esempio). Infine l’assegnista prenderà parte alla predisposizione di una bibliografia linguistica e artistica, storica e culturale sui ricettari, i materiali e le tecniche della pittura italiane delle origini da rendere consultabile nelle pagine della piattaforma del Laboratorio di Documentazione Storico Artistica.

Text in English:

The objectives of the research programme belong to the PRIN (Research Projects of Significant National Interest - Call for proposals 2022) project ArDIRe. Archive and digital dictionary of the first artistic recipe books in the Italian language (late 14th-16th century).

In this broader context, the research programme aims to catalogue and digitally archive the technical recipe books identified by the ArDIRe project as useful for defining the materials and execution techniques in use between the end of the 14th and the 16th century. In fact, within the framework of the PRIN project (University of Turin, CNR in Florence, University of Udine), the Udine unit is working on a prototype digital dictionary.

In particular, the holder of the research fellowship will take part in the identification of the 50 headwords that, identified in the chosen recipe books, will constitute the first repertory of the lexicon of early Italian painting proposed by the PRIN ArDIRe project with the objective of creating the first nucleus of the Historical Dictionary of Painting Materials and Techniques (DISPI). The research project therefore close collaboration with the teams of the University of Turin and the National Research Council-CNR in Florence, which will instead be responsible for transcribing the recipe books (or verifying transcribed texts that are already available) and entering them into the GATTO software, developed at the Opera del Vocabolario Italiano (OVI) institute - CNR in Florence.

The proposed digital dictionary will in fact be compiled according to the model of Tlio (Tesoro della lingua Italiana delle Origini), the vocabulary currently being compiled by the CNR’s OVI.

With reference to the texts taken into consideration, each vocabulary entry will contain a general part collecting phonomorphological variants; geolinguistic distribution; first known occurrence in Italian; etymology. A second part of the entry will instead be aimed at defining the techniques used, as a fundamental datum in the material history of painting. In addition, a link to the main digital resources on the web developed in Italy and abroad will be proposed.

The vocabulary will be hosted in a dedicated space on the LIDA platform of the Laboratory of Historical and Artistic Documentation of the Department of Humanistic Studies and Cultural Heritage of the University of Udine. As part of the research activity, the possibility and method of collecting the texts identified by the project on the platform will also be evaluated, possibly with cross-references to the selected headwords. Lastly, holder of the research fellowship will take part in the preparation of a linguistic and artistic, historical and cultural bibliography on the recipe books, materials and techniques of early Italian painting to be made available for consultation on the pages of the Laboratorio di Documentazione Storico Artistica platform.
