CUP G53D23007530001.

Art. 1

A selection proceeding is hereby announced for the award of 1 research grant at the University of Udine for the performance of the research activity identified in Annex A, which forms an integral and substantial part of this call. The research grant is linked to the research project on which it is based and is subject to the corresponding financial coverage.

Specifically, the project is placed within the context of the Italian National Recovery and Resilience Plan – Mission 4: Education and research, Component 2: From research to business, Investment 1.1: Fund for the National Research Programme and Research Projects of Significant National Interest, funded by the EU-Next GenerationEU. Project PRIN 2022 PNRR, Prot. n. P2022LFYZJ, titled “Cultural Itineraries in Lebanon (CIL). Community engagement, archaeological sites and the accessibility to the cultural landscape in Northern and Southern Lebanon”. CUP G53D23007530001.

The grant may be renewed with the winner in accordance with the provisions of Article 22 of Law no. 240 of 30 December 2010 (in the text prior to Leg. Decree no. 36 of 30 April 2022, converted with amendments by Law no. 79 of 29 June 2022) and the Regulations of the University of Udine for the awarding of research grants issued by Rector's Decree no. 182 of 31 March 2021, in the presence of a positive assessment by the scientific supervisor of the activity carried out by the research fellow, adequate scientific justification and related financial coverage, within the limits set out in Article 3, letters b) and c) below.
DECRETO RETTORALE

The activities covered by the research grant will respect the National Recovery and Resilience Plan’s “Do No Significant Harm” principle, i.e., they should not cause significant harm to the environment.

This call guarantees respect for generational, gender and territorial equal opportunities.

The results of the research conducted within the framework of the research grant and the related data will be published in accordance with the “Open Science” and “FAIR data” principles.

The research grant does not entitle the successful candidate to any rights as regards access to University roles.

Any personal communication to candidates relating to this selection will be sent exclusively to the email address indicated in the application form.

Art. 2
The activities covered by the research grant referred to in this call for competition and the admission requirements are indicated and described in Annex A. Failure to meet the admission requirements at the time of applying shall result in the exclusion of the candidate from the selection process.

Possession of a PhD qualification or equivalent qualification obtained abroad or, for the sectors concerned only, of a medical specialisation qualification accompanied by an adequate scientific production, constitutes a preferential requirement for the awarding of the grant envisaged for this selection, if it has not been mentioned as an admission requirement.

The Selection Board shall assess, for the sole purpose of admission to the competition, the suitability of any qualification obtained abroad, without prejudice to the assessment of the medical specialisation qualification to which Article 38, paragraph 3.1 of Legislative Decree 165/2001, as amended, and the relevant Community regulations apply.

The Board assesses the qualification obtained abroad based on the relevant documentation enclosed with the application to take part in the selection and may exclude the candidate if the submitted documentation does not provide sufficient elements for the assessment.

Candidates are therefore invited to enclose all documentation in their possession relating to their qualifications in order to provide the Board with sufficient elements to assess their position.

Candidates are admitted to the selection process subject to a reservation and their exclusion, for failure to meet the requirements, may be ordered at any time by reasoned decision.

Art. 3
The research grant referred to in this call cannot be awarded to the following subjects:

a) Employees of Universities and the entities referred to in Article 22(1) of Law no. 240 of 30 December 2010 (in the text prior to Leg. Decree no. 36 of 30 April 2022, converted with amendments by Law no. 79 of 29 June 2022).
DECRETO RETTORALE

b) Recipients of previous research grants pursuant to Law no. 240 of 30 December 2010, for the maximum period allowed by the regulations, excluding the period in which the grant was received in conjunction with a PhD, up to the legal duration of the relevant course.

c) Those who have already been awarded research grants and fixed-term researcher contracts pursuant to Law no. 240 of 30 December 2010 for a total of 12 years, even if not consecutive.

d) Those who have a degree of kinship or relationship, up to and including the fourth degree, with:
- The Rector, the Director General or a member of the Board of Directors of the University of Udine.
- The principal investigator or a professor/researcher belonging to the department or structure of interest where the research grant activity takes place.

The research grant referred to in this call cannot be cumulated with the following:

a) Awarded scholarships of any kind, except those granted by national or foreign institutions useful for supplementing, by means of stays abroad, the fellow's training or research activities.

b) Other research grants.

c) Employment relationships, even if part-time, without prejudice to the provisions of the regulations for employees of public administrations.

The grant referred to in this call is also incompatible with simultaneous attendance of degree courses, master's degrees, and PhDs with scholarships and medical specialisation, in Italy and abroad.

Persons who have been convicted of a criminal offence resulting in disqualification from holding public office or inability to contract with the public administration as a secondary penalty are not eligible for selection.

Art. 4

Applicants must submit, in the manner described in Article 5 below, the application to take part in the selection, duly signed in handwritten or digital form. An application without a signature will result in the exclusion of the candidate, except in the case of access through the use of the Public Digital Identity System (SPID) in which case the signature will not be necessary.

The application must be uploaded in its entirety (i.e., every page), otherwise the applicant will be excluded from the selection.

Applicants must enclose the following with their application for participation in the selection, under penalty of exclusion:

1. The professional scientific curriculum vitae in Italian or English or one of the additional languages, if any, indicated in Annex A, highlighting the candidate's aptitude for carrying out and implementing the research programme.

2. Copy of valid identity document or other identification document. Citizens of non-EU countries must enclose a copy of their passport.

3. Limited to citizens of non-EU states residing or authorised to reside in Italy, a copy of their residence permit or authorisation to reside in Italy.

4. For candidates who cannot provide a self-certification under the conditions set out below, documentation proving possession of the academic qualification required for admission to the selection. Possession of a higher academic qualification does not exempt the candidate from producing such documentation, which, if missing, will result in exclusion:
Candidates who are Italian citizens or citizens of a European Union Member State must submit a declaration in lieu of certification and, if necessary, a notarial deed regarding the academic qualification needed for admission (indicating the academic qualification, the academic institution awarding the qualification, the year it was awarded and the mark obtained) and the publications and other qualifications held, indicating for each one all the identification details necessary for the Board’s assessment. The application for participation counts as a declaration in lieu of certification of the declared academic qualification. If the subject matter of the declaration is not clearly identified in terms of its nature, duration, time setting and institution concerned, the selection board will disregard it. The Administration reserves the right to carry out appropriate checks on the truthfulness of the content of the declarations made; in the event of a false declaration, the provisions of Article 76 of Presidential Decree no. 445/2000 and Articles 483, 485, and 486 of the Italian Criminal Code shall apply. The University will not take into account any certificates attached by candidates who are Italian citizens or citizens of a state belonging to the European Union.

Citizens of a non-European Union State must submit documents and qualifications in Italian or English or one of the additional languages, if any, indicated in Annex A, under penalty of exclusion from the selection or, as the case may be, non-assessment. Documents and titles, originally in a different language, must be accompanied by a translation, made by the candidate under his or her responsibility, into Italian or English or any other language indicated in Appendix A. With reference to the dissertation only, the translation may be limited to an extended abstract.

Citizens of a non-EU State regularly residing in Italy may use declarations in lieu of certification only in respect of states, personal qualities or facts that can be certified or attested to by Italian public bodies, without prejudice to the special provisions contained in the laws and regulations governing immigration and the status of foreigners.

Citizens of non-EU states authorised to reside in Italy may use the aforementioned declarations in cases where they are produced pursuant to international conventions between Italy and the declarant's country of origin.

Applicants may also enclose with their application for assessment purposes their publications and any other qualification deemed useful to prove their qualification in relation to the research programme described in Annex A and to certify any research activity carried out in public and/or private entities (with the indication of the starting date and duration). The submission modalities are similar to those indicated in point 4 of the previous paragraph.

Only the qualifications possessed by the candidate on the date of submission of the application for selection and presented in accordance with Article 5 will be assessed.

Any exclusion from the selection procedure due to lack of eligibility requirements, absence of mandatory documents, failure to sign the application to take part in the selection or submission of the application in a manner other than that provided for in this call will be communicated to the parties concerned exclusively by email to the email address indicated in the application to take part in the selection.
DECRETO RETTORALE

The application to take part in the selection must be completed, under penalty of exclusion, using the appropriate online procedure, available at https://pica.cineca.it/.

For those who do not already have a user account, the procedure involves a registration phase for the applicant, and a subsequent phase for completing the application online.

Once completed, the application must be signed in the manner (handwritten signature, with attached identity document, or digital signature) described in the online procedure, under penalty of exclusion from the selection. The application does not have to be signed if the above-mentioned online procedure is accessed using the Sistema Pubblico di Identità Digitale (SPID - Digital ID Public System). In the case of a handwritten signature, the applicant must upload the application to the system in its entirety. The information entered in the application form shall constitute a declaration in lieu of certification and affidavit, pursuant to Articles 46 and 47 of Presidential Decree no. 445/2000.

The qualifications referred to in Article 4 must be attached to the application in .pdf format. Individual files, in .pdf format, may not exceed 30MB in size.

It is not permitted to submit attachments to the application in the form of links to files residing on "online storage/file sharing" services or web pages. Reference may not be made to documents or publications submitted to this or other administrations or documents attached to the application for participation in another selection procedure.

The application for participation in the selection is automatically sent to the University of Udine with the final closure of the online procedure.

The University Administration:
- accepts no liability if it is impossible to read the submitted documentation in electronic format due to damaged files;
- does not accept or take into consideration qualifications or documents received in paper form or by any other means than those specified in this article.

The Administration accepts no liability in the event of incorrect indication by the candidate of his/her email address or in the event of failure or delay in communicating a change in the email address indicated in the application, nor for any digital transmission errors attributable to third parties, unforeseeable circumstances or force majeure.

Applicants are advised not to wait until the last few days before the deadline to submit their application. The University accepts no liability for any malfunctions due to technical problems and/or overloading of the communication line and/or application systems.
Art. 6
The selection test takes place according to the modalities set out in Annex A.

The test will aim to ascertain the candidates’ preparation, experience and research aptitude. It will consist of an assessment of the professional scientific curriculum, publications and titles submitted, and an interview, where applicable.

Failure of the candidate to attend the interview will be considered as withdrawal from the selection, whatever the cause.

Candidates who intend to avail themselves of the benefits provided for by Article 20 of Law no. 104 of 1992 (need for assistance, possible use of additional time for the performance of examination tests) in relation to their disability situation, must declare this and accompany the application with appropriate medical certification in order to allow the Administration to prepare in time the means and tools to guarantee the statutory benefits; failure to submit the medical certification exempts the Administration from any obligation in this regard.

Art. 7
The Competition Selection Board is identified in Annex A to this call, of which it forms an integral part. At its first meeting, the Board appoints the Chairperson and the Secretary taking the minutes, and establishes the criteria and procedures for assessing the qualifications and the interview, where applicable.

The results of the assessment must be made known to the parties concerned at the interview, where provided for.

The Board can attribute to the selection a total number of 100 points (one hundred hundredths).

At the end of its work, the Board formulates the overall merit list based on the total marks obtained by each candidate and draws up the minutes of the competition operations.

The grant may be awarded, subject to the ranking list, to candidates who have obtained a minimum overall mark of 70/100 (seventy hundredths).

The Board's judgement is final on the merits.

The ranking list will be made public exclusively by publication on the University's official notice board; the outcome of the assessment will not be the subject of personal communication to candidates.

Those who do not declare their acceptance of the research grant and do not present themselves at the structure where the research activities are to be carried out to sign the contract by the deadline communicated by the same to the email address indicated by the candidate in the application shall forfeit their right to the research grant, except for health reasons or reasons of force majeure duly documented and promptly notified.

The industrial property rights to the results obtained by the research fellow in the performance of the research activity belong exclusively to the University, without prejudice to the moral right of the research fellow to be recognised as an author or inventor.

The University reserves the right to revoke this call for competition for reasons of public interest, should the research project and/or the financial backing on which the research grant is based cease to exist. Should these causes arise after the contract has been signed, the University may terminate the contract without notice.

Testo in italiano:
L’obiettivo dell’assegno di ricerca è la pianificazione di itinerari culturali che connettano i siti archeologici di epoca Classica e Tardo Antica collocati nella regione del Libano Settentrionale e Centrale. In maggiore dettaglio, l’assegnista dovrà lavorare a stretto contatto con il PI per lo svolgimento dei seguenti compiti:

- Studio e catalogazione di potenziali siti di epoca classica idonei alla creazione di itinerari culturali collocati nel Libano interno. Il progetto di ricerca prevede già cinque siti collocati nell’area: si tratta dei templi di Sfireh, Ain Akrine/Qasr Naus, Hardine Yanouh e Qalaat Faqra. In aggiunta l’assegnista dovrà identificare due altri siti da inserire come ulteriori potenziali aree di interesse. Le schede di catalogazione dovranno contenere le informazioni relative ai monumenti, informazioni relative alla storia dei siti di epoca sia classica sia pre / post classica; dovranno inoltre contenere una valutazione relativa al loro potenziale valore storico culturale per la regione. Le informazioni dovranno essere redatte in modalità di schede per essere inserite in un database GIS da pubblicare online.

- Il secondo compito sarà la selezione dei potenziali collegamenti tra i diversi siti, per verificare la loro fattibilità sia a piedi sia in auto o con mezzi pubblici. In particolare l’assegnista dovrà concentrare la sua attenzione sul sito di Ain Akrine/Qasr Naus e verificare gli itinerari che possono partire e/o arrivare dal sito stesso sia verso altri siti archeologici della regione (ad esempio il tempio di Bziza) sia verso i principali centri municipali, quali ad esempio Amioun.

- Il terzo obiettivo sarà la valutazione delle potenziali attività da implementare per migliorare la promozione dei siti archeologici e la loro fruibilità; il lavoro prevede la valutazione di due casi studio chiave, ossia Ain Akrine e Sfireh, per verificare la presenza di aree utili all’accoglienza dei turisti e alla diffusione delle informazioni...
DECRETO RETTORALE

necessarie per promuovere il valore storico, artistico e archeologico dei templi presenti nei siti archeologici.
Ciò contribuirà a migliorare conoscenza dei monumenti stessi sia presso la popolazione locale sia presso potenziali visitatori nazionali/internazionali.

L’assegnista dovrà dimostrare di avere un’adeguata competenza nel campo del patrimonio storico-artistico del Libano, con una conoscenza dei principali tratti caratterizzanti la regione settentrionale durante l’epoca classica, soprattutto nei secoli I-III/IV d.C. Inoltre, dovrà possedere una buona conoscenza dell’ambiente e del territorio della regione del Libano centrale e settentrionale, nonché delle problematiche locali relative sia alle infrastrutture presenti (percorsi, strade), sia ai rapporti con le municipalità e con gli enti di riferimento per la promozione del patrimonio culturale-archeologico, come la Direzione Generale delle Antichità del Libano e le Direzioni locali/regionali. Sarà inoltre richiesta un’adeguata capacità nell’ambito della musealizzazione, promozione e/o valorizzazione del patrimonio culturale, artistico e archeologico. Si prevede che l’assegnista abbia una buona, se non ottima, padronanza dell’arabo e della lingua inglese.

Text in English:
The aim of the research grant is the planning of cultural itineraries connecting Classical and Late Antiquity archaeological sites located in the central and northern region of Lebanon. In further detail, the grantee will work closely with the PI to carry out the following tasks:

- Study and cataloguing of potential Classical-era sites suitable for the creation of cultural itineraries located in the inland regions of Lebanon. The research project already includes five sites in the area: these are the Classical-era temples located at Sfireh, Ain Akrine/Qasr Naus, Hardine Yanouh, and Qalaat Fagra. Additionally, the grantee will identify two other sites to include as further potential areas of interest. The cataloguing sheets will contain the main historical-artistic information (chronology, monument typology, information regarding the history of the sites from both Classical and pre/post-Classical periods); they will also include an assessment of their potential historical-cultural value for the region. The information will be drafted in sheet format to be included in a GIS database to be published online.

- The second task will be the selection of potential connections between the various sites, to verify their feasibility on foot, by car, or by public transport. In particular, the grantee will focus on the Ain Akrine/Qasr Naus site and verify the routes that can depart from and/or arrive at the site itself, both towards other archaeological sites in the region (e.g., the temple of Bziza) and towards the main municipal centers, such as Amioun.

- The third objective will be the evaluation of potential activities to implement to improve the promotion and accessibility of archaeological sites; the work will involve evaluating two key case studies, namely Ain Akrine and Sfireh, to verify the presence of areas useful for welcoming tourists and disseminating the necessary information to promote the historical, artistic, and archaeological value of the temples present in the archaeological sites. This will contribute to improving knowledge of the monuments themselves both among the local population and potential national/international visitors.

The grantee must demonstrate adequate expertise in the field of historical-artistic heritage of Lebanon, with knowledge of the main features characterizing the northern region during the Classical period, especially in the 1st-3rd/4th centuries AD. Additionally, they must possess good knowledge of the environment and territory of the central and northern region of Lebanon, as well as the local issues related to both existing infrastructures (paths, roads) and relationships with municipalities and reference entities for the promotion of cultural-archaeological heritage, such as the Directorate General of Antiquities of Lebanon and local/regional Directorates. Adequate skills in the field of museumization, promotion, and/or enhancement of cultural, artistic, and archaeological heritage are also required. It is expected that the grantee has a good, if not excellent, command of both Arabic and English languages.
